### Description

(proposed improvements, modifications and/or other request ,as applicable)

Application Fee:

- \*\*Submit a Plan showing existing conditions and any proposed improvements and/or modifications associated with this request. **Professional Site Plans or surveys are required for all new construction and demo/rebuild projects, as well as As-Built Plans.**
- Show entire property including all boundary lines and associated building setbacks required, as well as delineated distances from required setbacks .
- Submit elevation drawings identifying maximum height of structure where applicable.
- For properties located in Special Flood Hazard Areas (Flood Zones), the Site Plan must delineate Flood Zone boundaries with reference to the associated current Flood Insurance Rate Map (FIRM). Building elevation drawings showing grade, floor and Base Flood Elevations (BFE), as well as floor plans are also required.

\*\* The Zoning Official reserves the right to require a Certified Site Plan or Survey to confirm dimension(s) based on the proximity to setbacks, property boundaries or other associated zoning requirements.
