To the Citizens of Westerly, Rhode Island

The comprehensive annual financial report of the Town of Westerly, Rhode Island, for the fiscal year ended June 30, 2011, is hereby submitted as mandated by state statute. State laws require that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants licensed to practice in the State of Rhode Island.

This report consists of management's representations concerning the finances of the Town of Westerly, Rhode Island. Consequently, management assumes full responsibilities for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the Town of Westerly, Rhode Island has established a comprehensive internal control framework that is designed to both protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Town of Westerly's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Town of Westerly's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute assurance that the financial statements will be free from material misstatement. As management, I assert that, to the best of my knowledge and belief, this financial report is complete and reliable in all material respects.

The Town of Westerly's financial statements have been audited by Bacon & Company, LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Town of Westerly for the fiscal year ended June 30, 2011, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unqualified opinion, that the Town of Westerly's financial statement for the fiscal year ended June 30, 2011, are fairly presented in conformity with GAAP. The independent auditor's report is present as the first component of the financial section of this report.

The independent audit of the financial statements of the Town of Westerly was part of the broader, federally mandated “Single Audit” designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentations of the financial statements, but also on the audited government’s internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are included in the Single Audit section of this report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Town of Westerly’s MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE GOVERNMENT

General

The Town of Westerly, incorporated in 1669, is in the southwest corner of the State of Rhode Island, bounded on the west by the town of Stonington, Connecticut, on the North by the towns of North Stonington, Connecticut and Hopkinton, Rhode Island, on the east by the town of Charlestown, Rhode Island, and on the south by the Atlantic Ocean. Covering 32.5 square miles, Westerly is located approximately 42 miles from Providence, Rhode Island, 60 miles from Hartford, Connecticut, 80 miles from Boston, Massachusetts, and 130 miles from New York City, New York.

The Town has a population of 22,787 (2010 Census) up 1.4% from the 2000 census. In 2009, the Town’s median family income was \$52,946, and the median value of owner occupied housing was \$310,000 (source US Census Bureau). Not reflected in the Census statistics is the above average income of the more than 17,000 summer inhabitants of the Town who contribute to the Town’s economy, nor the value of vacation homes located along the Town’s coastal areas.

Westerly is an economically diverse residential community with a well established commercial base, small pockets of industry and recreational facilities. Due to its many miles of salt water beaches and ocean frontage, the Town is a well known vacation and tourist center, and part of the Rhode Island’s South County summer vacation area. Stately summer residences located in the Watch Hill area along with summer cottage colonies located in the Misquamicut, Weekapaug and Shelter Harbor areas of the Town add substantially to the Town’s tax base.

Government

The Town of Westerly, established in 1669, operates under a Home Rule Charter adopted in 1968, which provides for a council/manager form of government. The Town Council, comprised of seven members elected at large who each serve two year terms, is vested by the Charter with all legislative powers of the Town, including the ordering of any tax, making appropriations, and transacting any other business pertaining to the financial affairs of the Town. The Charter grants to the Town Council all powers to enact, amend, or repeal ordinances related to the Town's property, affairs, and government. The Council also has the power relating to the Town's property, affairs, and government. The Council also has the power to authorize the issuance of bonds or notes by resolution, subject to approval by a majority of electors voting who are qualified to vote on financial matters of the Town.

The Town Council appoints the Town Manager for an indefinite term solely on the basis of his executive and administrative qualifications and experience. The Town Manager is the chief executive officer and the head of the administrative branch of the Town government. The Town Manager is responsible for carrying out the policies of the Town Council, for overseeing the day to day operations of the Town, and for appointing all other employees, except for School Department personnel.

The Town provides a full range of municipal services including public safety protection, the construction and maintenance of highways, streets and other infrastructure, libraries, recreational activities, planning and zoning, education and administrative services. In addition, the Town operates water, sewer and solid waste utility systems.

The annual budget serves as the foundation for the Town of Westerly's financial planning and control. All departments of the Town are required to submit requests for appropriation and revenue estimates to the Town Manager on or before the last day of October of each year. The School Committee submits the proposed school budget by the second Monday of January each year. The Town Manager uses these requests as the starting point for developing a proposed budget. It is the responsibility of the Town Manager to submit a proposed budget for the following fiscal year to the Town Council on or before the third Monday of January of each year. The Town Council and Board of Finance hold several budget work sessions to discuss the details of the proposed budget document. The Town council may revise and adopt a preliminary budget not later than April 8th of each year.

Following adoption of the preliminary budget by the Council, any qualified elector of the Town may circulate and file a petition contesting any of the proposed budget items, by April 22nd of each year. If no petition is filed by this date, the budget is considered

adopted. If there is a petition, a referendum must be held within 35 days of the date the Board of Canvassers validates the signatures on the budget petition.

The appropriated budget is prepared by fund, major program function (e.q., public safety) and department (e.q., police). Department heads may make transfer of appropriation within a department. Transfers with a major program function may be made by the Town Manager, provided that proper notification is given to the town Council.

Budget to actual comparisons are provided in this report for the general fund on pages 62 - 65.

Factors Affecting Financial Condition

The information presented in the financial statement is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Town of Westerly operates.

Local Economy

Westerly was known for its granite and stone-cutting industry, a type of granite, known as Westerly granite, has been and continues to be quarried here. The granite is ideal for statuary, and has been used in numerous government buildings of states along the eastern seaboard.

Along the coast of Westerly lie salt ponds, which serve as shallow reef like pools, whose outer walls form the long, white beaches which the town is renowned for. These ponds, Maschaug Pond, Winnapaug Pond and the Ouocochontaug Pond are assets that the town continues to utilize. They are part of the Rhode Island's growing aquaculture industry. Portions of the ponds are leased to small commercial oyster farms.

With its coastline and beaches, Westerly was always a tourist destination. Despite the down economy, investment in Westerly continues. In 2010, the Ocean House's \$146 million dollar renovation was completed and it opened its door for business. The nearby Weekapaug Inn, closed in 2005, is currently in the midst of a similar renovation.

Being recognized as one of the Country's top new golf facilities, the Shelter Harbor Golf club was opened in 2005. This is just one of multiple public and private golf courses located in Westerly. Other recreation facilities include two yacht clubs, and several marinas and boat yards. The Westerly YMCA, located downtown, is currently halfway through a \$6.5 million renovation, and in 2011 started operating a downtown outdoor ice skating rink, funded with nearly \$1 million of private donations.

Westerly is home to the Westerly State Airport, a 321 acre facility that has more than 25,000 annual flights (averaging over 60 per day), and is also home to an Amtrak Station. In 2011 the town and area businesses started a free trolley service between the beaches and downtown area. This highly successful program provided an opportunity for the many summer beach day trippers to come to downtown to experience the many shops and restaurants, and famous Wilcox Park located in downtown Westerly.

Despite a downturn in State and national building, Westerly has continued to see commercial and residential building. Fieldstone is a recently approved 50+ lot sub division and currently a developer has approached the town about building a 200 lot RV Park.

Westerly just completed a \$30 million renovation of its high school. This was after building a \$28 million dollar middle school in 2006, a new \$12 million police station in 2007 and \$5 million public works facility in 2008. The town continues to make infrastructure improvements as needed, and is currently looking at expanding sewer service to costal commercial district, that will allow these areas to continue to expand, while providing protection for the habitat of the coastal area.

Pension and other postemployment benefits

Unlike most municipalities Westerly has moved away from defined benefit type pensions. Most town employees participate in a defined contribution (401 type) plan. There are only two groups, police and teachers, which still have defined benefit plans.

Teachers participate in the State plan. In November 2011, the State of Rhode Island passed major changes to this plan. Among the changes is the creation of a hybrid program with both defined benefit and defined contribution components. This legislation also changed the required length of service. As a result, Westerly will continue to see level funding for teacher pensions.

The police are in a town managed defined benefit plan. Assets are professionally managed. This pension is currently funded at 56%. The town will look at changes made to the state plan, and look to implement some of ideas into its plan.

Westerly has a small OPEB obligation, \$13 million, related to past and grandfathered employees. OPEB funds are currently part of pension funds and allocated by the actuary. The town plans to separate these funds in FY 2012 to provide a more transparent reporting of assets.

Other

Westerly believes that transparency and the accountability it inspires. This report is the towns first time the annual audit was presented in the form of a Comprehensive Annual Financial Report. The town has redesigned its monthly budget reports and started posting them, its non payroll check register, and pension actuary reports on its Town website. For FY 2012 Westerly combined the role of Town and School Finance Director position, and continues to look at other areas to combine services and expand report on its activities to the public.

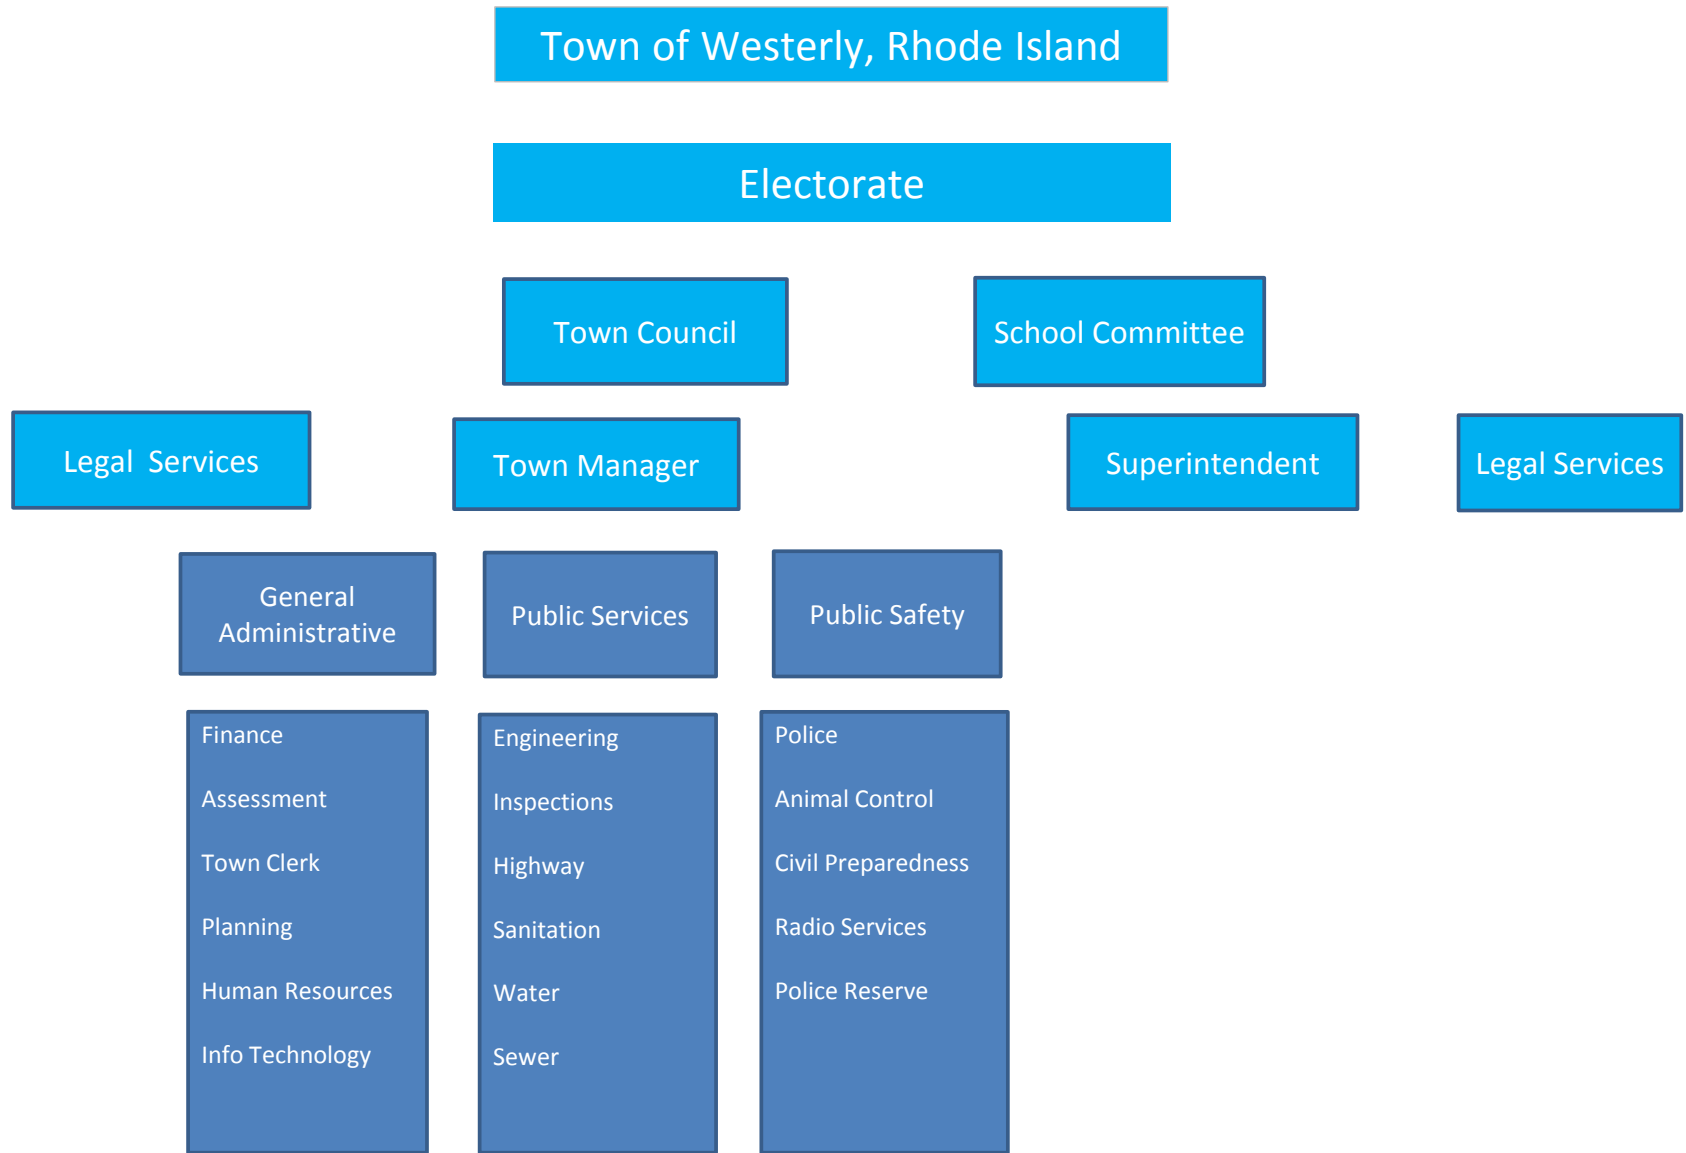

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance department. We would like to express our appreciation to all members of the department. Credit must also be give to the Town Council and its President, and the School Committee and its Chairman, for the unfailing support for achieving and maintaining the highest standards of professionalism in the management of the Town of Westerly's finances.

INDEPENDENT AUDITORS' REPORT

To the Honorable President
and Members of the Town Council
Westerly, Rhode Island

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Westerly, Rhode Island, as of and for the year ended June 30, 2011, which collectively comprise the Town's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of the Town of Westerly, Rhode Island's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Westerly, Rhode Island, as of June 30, 2011, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 6, 2012 on our consideration of the Town of Westerly, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis, budgetary comparison information and supplementary pension and other postemployment benefit information on pages 3 through 12 and 60 through 70 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Westerly Rhode Island's basic financial statements. The introductory section, the combining nonmajor fund financial statements, the combining fiduciary fund financial statements, other supplementary information, the statistical tables and the schedule of expenditures of federal awards are presented for purposes of additional analysis and as required by the U.S. Office of Management and Budget Circular A-133, *"Audits of States, Local Governments, and Non-profit Organizations"* and are not a required part of the basic financial statements. The combining nonmajor fund financial statements, the combining fiduciary fund financial statements, other supplementary information and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

TOWN OF WESTERLY, RHODE ISLAND
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended June 30, 2011

As management of the Town of Westerly, we offer readers of the Town's financial statements this narrative overview and analysis of the Town's financial activities for the fiscal year ended June 30, 2011. We encourage the reads to consider the information presented here in conjunction with the letter of transmittal on pages i-vi of this report as well as the Town's basic financial statement that follow this section.

Financial Highlights

- The assets of the Town of Westerly exceeded its liabilities at the close of the most recent fiscal year by \$119,775,592. Of this amount \$15,442,332 is unrestricted and may be used to meet the Town's ongoing obligations to citizens and creditors.
- The Town's net assets increased by \$776,152.
- As of the close of the current fiscal year, the Town of Westerly's governmental funds reported combined ending fund balances of \$13,123,349. Approximately 14.2% of the ending fund balance, \$1,866,458, is unassigned and available for use within the Town's designation and fiscal policies.
- At the end of the current fiscal year, the General Fund's unassigned fund balance was \$8,890,798, or 11.6% of the total General Fund budgeted expenditures for the 2012 fiscal year. The current fiscal year's General Fund revenues exceeded expenditures and transfers by \$1,320,540 on a GAAP basis and by \$1,068,634 on a budgetary basis.
- The Town's total bonded debt decreased by \$4,285,000 (6.7%) during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town of Westerly's basic financial statements. The Town's basic financial statements comprise three components:

1. Government-Wide Financial Statements
2. Fund Financial Statements
3. Notes to the Financial Statements

This report also contains other supplementary information in addition to the basic financial statements themselves.

The Town's basic financial statements and other supplementary financial information provide information about all of the Town's activities. They provide both a short-term and long-term view of the Town's financial health as well as information about activities for which the Town acts solely as a trustee for the benefit of those outside of the Town's government.

Government-Wide Financial Statements. The government-wide financial statements are designed to provide readers with board overview of the Town's finances in a manner similar to a private-sector business.

The statement of net assets present information on all of the Town's assets and liabilities, with the difference between the two reported as net assets. Over time, increase or decreases in net assets may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the Town's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. Examples are uncollected taxes and earned but unused compensated absences.

Both of the government-wide financial statement distinguish functions of the Town of Westerly that are principally supported by taxes and intergovernmental revenue (governmental activities) from other functions that are intended to recover all or a significant portion of their cost through user fees and charges (business-type activities). The government activities of the Town include general government, public safety, streets and highways, libraries, education and recreation. The business-type activities of the Town include a water fund, sewer fund and beach fund.

The government wide financial statements are reported on pages 13 through 14.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Westerly, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the Town can be divided into three categories, governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statement, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town of Westerly maintains individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, School Bond Fund, and Capital Project Fund, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non major governmental funds is provided in the form of combining statements included in the other supplementary information.

The Town of Westerly adopts an annual appropriated budget for its General Fund and school fund. Budgetary comparison schedules have been provided for the General Fund and school fund to demonstrate compliance with this budget.

Proprietary Funds. The Town's proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements with the exception of the Internal Service Funds which are reported as governmental fund type activity. The Town has three enterprise funds. Water Fund accounts for the water system of the entire Town of Westerly as well as neighboring Pawcatuck, Connecticut. Sewer Fund operates seventy-eight (78) miles of sanitary sewers, which covers approximately 50% of the Town. Beach Fund accounts primarily for rental and parking activities for the waterfront property acquired in 2001.

The Town's internal service funds represent an accounting device used to accumulate and allocate cost internally among the Town's various functions. The Town has two internal service funds, Health Fund and Self-Insurance Fund. The Town is self insured in its health and dental coverage, and Health Fund reports the actual claims as well as the Town's contribution to the fund and employee deductions for the benefit program. Self-Insurance Fund records activities for the Town's commercial insurance deductibles and insurance claim receipts.

The basic proprietary fund financial statements are present on pages 19-22.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because resources of those funds are **not** available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statement can be found on pages 23-24.

Notes to Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statement are presented on page 25-59.

Other Information. In addition to the basis financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Town of Westerly.

Required Supplementary information is presented on pages 60-70.

The combining statements referred to earlier in connection with non major governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 71-82.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Town of Westerly, assets exceeded liabilities by \$119,775,592 as of June 30, 2011

The largest portion of the Town's net assets (82%) is its investment in capital assets (e.g. land, buildings, infrastructure, machinery and equipment); less any related debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide service to citizens, consequently, these assets are not available for future spending. Although the Town's investment in capital assets is report net of related debt, it should be noted that the resources to repay this debt must be provided from other sources, since the capital asset cannot be used to liquidate these liabilities.

An additional portion of the Town's net assets, \$5,596,748, represents resources that are subject to external restriction on how they may be used. The remaining balance of unrestricted net assets \$15,442,332, may be used to meet the government's ongoing obligations to its citizens and creditors.

At the end of the current fiscal year, the Town of Westerly is able to report positive balance in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities.

The Town's net assets increased by \$776,152 during the current fiscal year. Of this amount governmental activities accounted for \$1,001,398 of the increase while business-type activities accounted for a decrease of \$225,246.

Governmental Activities. Governmental activities increased the Town's net assets by, \$1,001,398, thereby accounting for 129% of the total increase in net assets of the town.

2011 Governmental Activities Revenue

2011 Governmental Activities Expenses

Business-type Activities - Net assets in business type activities decreased by \$225,246, resulting in a 0.6% decrease in business-type assets.

Charges for services for business-type activities accounted for 99% of the total revenue sources. The balance of revenues for business-type activities was from operating grants and contributions and investment income.

The total expenses within the business-type activities of the Town include the following: Water Fund 58.3%, wastewater treatment 38.7% and Beach Fund 3%.

Financial Analysis of the Town of Westerly's Funds

As noted earlier, the Town of Westerly uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds - The focus of the Town of Westerly's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the Town's governmental funds reported a combined ending fund balance of \$13,123,349. Approximately 14.2% is available for spending at the government's discretion within the Town's total Fund Balance. The remaining fund balance of \$11,256,891 included \$5,207,703 of Restricted and Committed Fund Balance for Capital Projects, \$160,000 assigned to the 2012 budget, \$234,145 nonspendable for prepaid items, and \$5,655,043 restricted, and committed to specific programs.

The General Fund is the chief operating fund of the Town of Westerly. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$8,890,798 while total fund balance reached \$14,260,714. As a measure of the General Fund's liquidity it may be useful to compare both unassigned fund balance and total fund balance to total General Fund budgeted expenditures. Unassigned fund balance represents 11.6% of the 2012 FY Adopted General Fund Expenditure Budget. While total fund balance represents 18.6% of that same amount.

Key Factors in the change of the Town's Governmental Fund Balances

The major factor impacting Westerly's Governmental Fund balances was from the School Bond Fund. This fund operated at deficit of (\$9,015,370) and had a negative fund balance of (\$7,023,593) on June 30, 2011.

The School Restricted fund balance of \$4,953,087 of which \$1,469,528 has been committed to the 2012 FY budget, additionally \$265,190 is committed to liquidate contracts and purchase orders of the prior year, and \$800,000 is designated for supplementary assessments for unfunded pension liabilities. There is \$820,000 designated for maintenance, capital, and contingencies.

Proprietary Funds - The Town of Westerly's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets in the water fund at the end of the fiscal year amounted to \$3,471,028, unrestricted net assets in the sewer fund was \$2,733,854 and the balance in the beach fund was \$14,073.

General Fund Budgetary Highlights

Overall the Town of Westerly, Rhode Island finished the 2011-2011 fiscal year with a budgetary surplus of \$1,068,634.

Major General Fund Revenue Factors:

General Property Taxes - Property taxes are the largest single revenue source for the General Fund and account for 82% of total revenues. The town budgeted current property tax conservatively at 97.2% collection rate, while the actual collection rate was at approximately 98.4%. Despite the weak economy tax collections remain strong.

Intergovernmental Revenues - The Town receives a portion of revenue from Meals and Hotel Tax collected by local establishments and remitted to the State of Rhode Island. Despite the weak economy, the addition of new business, and a good summer trade, more than offset this and is the main reason that the Town collected \$211,512 more than budgeted for Intergovernmental Revenues.

Licenses and Permits - The economy and downturn in new residential construction resulted in this item being under budget by \$143,926.

Interest on Investments - Lower interest rates and an increased demand for compensating balances to offset bank fees resulted in significantly lower interest income. This item was \$76,685 under budget.

Solid Waste Revenues - Transfer station receipts were under budget by \$421,625. This is due to weaker economy and decreased volumes of demolitions from construction and renovations, and increased efforts towards recycling. The reduction in revenue was partial offset by reduced expenditures in dumping fees at Rhode Island Resource Recovery.

Major Expenditure Factors:

Education Expense account for approximately 61.9% of the total expenditures within the General Fund of the Town of Westerly. Public Safety 6.5%, Public Works 7.2%, and General Government 8.8%. The other major expense is debt service which accounts for 10.5%.

General Government - Westerly is self funded for Healthcare. Positive results from claims are the main reason this item was \$484,748 under budget.

Debt Service - Lower than anticipated interest rate on debt resulted in lower than anticipated debt service for the fiscal year. This item was \$314,063 under budget

Capital Assets and Debt Administration

Capital Assets - The Town of Westerly's in capital assets for its governmental and business-type activities as of June 30, 2011 amounts to \$185,853,667 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery and equipment, park facilities, infrastructure, and construction in progress.

State statutes limit the amount of general obligation bonded debt a town can issue to 3 percent of net assessed property values. However, all bonds approved through State enabling legislation and voter referendums are exempt from the limit. As of June 30, 2011, the Town had a debt limit of \$184,350,292.

In June 2010, Standard and Poor's upgraded the Town of Westerly's credit rating from AA - to AA. Moody's Investors Service recalibrated Rhode Island Municipal credit rating during FY 2010. Moody's upgraded the Town of Westerly from Aa3 to Aa2. These ratings were affirmed in July 2011.

In November 2010, Westerly electorates authorized to issue \$6,500,000 General Obligation Bonds and Notes for the purpose of financing the construction, renovation, and rehabilitation repair and or improvements of the Town roads, sidewalks, drainage facilities, and other Town infrastructure. A note was issued in December 2011, with a maturity date of August 2012. It is the Town's intent to issue Bonds at that time to retire the note.

The Town issued general obligation bond anticipation notes in advance of issuing debt, depositing the proceeds in its School Bond Fund. The notes mature on July 28, 2011. The amount issued was \$12,650,000.

Economic Factors and Next Year's Budget and Rates

The Town of Westerly's total General Fund budget for fiscal year 2012 amounts to \$76,480,485, which reflects an increase of \$849,800 (1.1%) over the fiscal 2011 budget. This was the first year the Town increased its budget after two years of decreases. Of the Town's \$76,480,485 budget, \$48,371,822 or 63% is budgeted for Westerly Public Schools. The Town is budgeted to receive \$5,271,093 from the State of Rhode Island for Aid to Education.

The Town's tax rate for fiscal year 2012 is \$9.74 versus \$9.70 for fiscal year 2011.

The Town's debt service will increase in fiscal year 2012 and fiscal year 2013 and level off and see significant reduction in fiscal year 2016. The primary cause of this increase is recently issued debt related to the High School renovation.

The Town is the first Rhode Island community to combine the Town and School Finance Director position. The Town and School continue to find ways to share services to reduce overall cost.

*Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and
Changes in the Fund Balances to Government-Wide Statement of Activities
For the Year Ended June 30, 2011*

Net Changes in Fund Balances - Total Governmental Funds \$ (7,666,130)

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Governmental Funds Financial Statements report capital outlay as expenditures. However, in the Government-Wide Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

This is the amount of capital assets recorded in the current period. 20,470,953
This is the amount of current year depreciation on capital assets. (4,112,188)

Property taxes that are not collected in the current period do not represent current financial resources, however they are recognized as revenues in the Government-Wide Statement of Activities. 129,533

The long-term net pension obligation and net other post-employment benefit obligation are reported in the Government-wide Statement of Activities, but does not require the use of current financial resources. Therefore, the long-term net pension obligation and net other post-employment benefit obligation are not reported as an expenditure in the Governmental Funds Financial Statements. (276,813)

Long-term compensated absences are reported in the Government-Wide Statement of Activities, but do not require the use of current financial resources. Therefore, long-term compensated absences are not reported as expenditures in Governmental Funds Financial Statements. (179,056)

Debt proceeds provide current financial resources to Governmental Funds, but issuing debt increases long-term liabilities in the Government-Wide Statement of Net Assets. Repayment of debt principal is an expenditure in Government Funds, but the payments reduce long-term liabilities in the Government-Wide Statement of Net Assets.
This amount represents long-term debt issued during the year. (11,754,003)
This amount represents long-term debt payments. 5,010,180

Accrued interest on long-term debt is reported in the Government-Wide Statement of Activities, but does not require the use of current financial resources. Therefore, accrued interest expense is not reported as an expenditure in the Governmental Funds Financial Statements. The following amount represents the change in accrued interest from prior year. (239,493)

The Internal Service Fund is used by management to charge the costs of health and dental insurance and other insurance to individual funds. The net revenues (expenses) of the Internal Service Fund is reported with Governmental Activities in the Government-Wide Financial Statements. 5,139

Bonds issued at a premium provide current financial resources to Governmental Funds, but are deferred and amortized in the Government-Wide Financial Statements. Debt issuance costs and loss on refundings are expenditures in the Governmental Funds, but are deferred and amortized in the Government-Wide Financial Statements.
This amount represents current year premium received. (60,204)
This amount represents the current year amortization of bond premium. 30,421
This amount represents current year bond issuance costs. 174,412
This amount represents current year amortization of bond issuance costs. (33,852)

Revenues in the Statement of Activities that are not measurable and available in Governmental Funds are not reported as revenue in the Governmental Funds Financial Statements. 103,657

The disposal of a capital asset is reported in the Governmental Funds based on the total sale proceeds received. The disposal of a capital asset is reported in the Government-Wide Financial Statement net of the capital assets book value (1,042,121)

Capital asset contributions are reported in the Government-Wide Statement of Activities, but not in the Governmental Funds financial statements since they do not provide current financial resources. 440,963

Change in Net Assets of Governmental Activities \$ 1,001,398

The accompanying notes are an integral part of the basic financial statements.

TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

The financial statements of the Town of Westerly, Rhode Island, have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following notes to the financial statements are an integral part of the Town's financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. REPORTING ENTITY

The Town of Westerly was founded in 1669. The Town is governed largely under the 1968 Westerly Home Rule Charter. In some matters, including the issuance of short and long-term debt, the Town is governed by the general laws of the State of Rhode Island. The Town operates under a Town Council-Town Manager form of government and provides the following services as authorized by its charter: public safety (police, traffic safety, inspections); public works (sanitation, highways and streets, engineering and building maintenance); zoning and planning; parks and recreation; education; social services; and general administrative services.

In evaluating the inclusion of other separate and distinct legal entities as component units within its financial reporting entity, the Town applied the criteria prescribed by GASB Statement No. 14, as amended by GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units." A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable or for which the nature and significance of its relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The Town of Westerly does not have any component units.

B. BASIS OF PRESENTATION AND ACCOUNTING

The accounts of the Town are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds to demonstrate legal compliance and to aid management by segregating transactions related to specific Town functions or activities.

Government-Wide Financial Statements

The Town's Government-Wide Financial Statements include a Statement of Net Assets and a Statement of Activities. These statements present summaries of Governmental and Business-Type Activities for the Town accompanied by a total column. Fiduciary activities of the Town are not included in these statements.

TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

These statements are presented on an “*economic resources*” measurement focus and the accrual basis of accounting. Accordingly, all the Town’s assets and liabilities, including capital assets, infrastructure assets and long-term liabilities, are included in the accompanying Statement of Net Assets. The Statement of Activities presents changes in net assets. Under the accrual basis of accounting, revenues are recognized in the period earned while expenses are recognized in the period the liability is incurred. The types of transactions reported as program revenues for the Town are reported in three categories: 1) charges for services; 2) operating grants and contributions; and 3) capital grants and contributions.

Certain eliminations have been made as prescribed by GASB Statement No. 34 in regards to interfund activities, payables and receivables. All internal balances in the Statement of Net Assets have been eliminated except those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the total column. In the Statement of Activities, internal service fund transactions have been eliminated; however, those transactions between governmental and business-type activities have not been eliminated.

The Town applies to the Business-Type Activities and Enterprise Funds all applicable GASB pronouncements (including all NCGA Statements and Interpretations currently in effect) as well as the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARB) of the Committee on Accounting Procedure.

Governmental Fund Financial Statements

Governmental Fund Financial Statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net assets and changes in net assets presented in the Government-Wide Financial Statements.

All governmental funds are accounted for on a spending or “*current financial resources*” measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally 60 days after year-end) are recognized when due. The primary revenue source, which has been treated as susceptible to accrual by the Town, is intergovernmental revenues. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

Major Governmental Funds:

General Fund – The General Fund is used to account for resources devoted to financing the general services that the Town performs for its citizens.

Capital Project Fund – The Capital Project Fund is used to account for financial resources to be used for the acquisition and construction of major capital improvements (other than those financed by Proprietary or Trust Funds).

School Bond Fund – The School Bond Fund is used to account for debt proceeds to be used for the acquisition and construction of major School Department capital improvements.

Proprietary Fund Financial Statements

Proprietary Fund Financial Statements include a Statement of Net Assets, a Statement of Revenues, Expenses and Changes in Fund Net Assets, and a Statement of Cash Flows. A column representing internal service funds is also presented in these statements. However, internal service balances and activities have been combined with the Governmental Activities in the Government-Wide Financial Statements.

Proprietary funds are accounted for using the “*economic resources*” measurement focus and the accrual basis of accounting. Accordingly, all assets and liabilities (whether current or noncurrent) are included on the Statement of Net Assets. The Statement of Revenues, Expenses and Changes in Fund Net Assets presents increases (revenues) and decreases (expenses) in total net assets. Under the accrual basis of accounting, revenues are recognized in the period earned while expenses are recognized in the period the liability is incurred.

Operating revenues in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses.

The Town has three Enterprise Funds as follows:

Water Fund – The Water Fund is used to account for the operation of the Town’s water system.

Sewer Fund – The Sewer Fund is used to account for the sewer use fees and the expenses associated with providing wastewater services to Town residents.

Beach Fund – The Beach Fund is used to account for the operation of the Town’s beach.

The Town has two Internal Service Funds as follows:

Health Fund – The Health Fund is used to account for the Town’s self-insured health and dental care programs.

TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

Self-Insurance Fund – The Self-Insurance Fund is used to account for insurance claims and deductibles not covered by the Town’s commercial insurance coverage.

Fiduciary Fund Financial Statements

Fiduciary Fund Financial Statements include a Statement of Net Assets and a Statement of Changes in Net Assets. The Town’s Fiduciary Funds are the Pension Trust Fund, Private Purpose Trust Funds and Agency Funds. Fiduciary Funds are used to account for assets held by the Town in a trustee capacity or as an agent for individuals, private organizations or other governments. The Fiduciary Funds are accounted for on a spending or “*economic resources*” measurement focus and the accrual basis of accounting. Agency funds are purely custodial and do not involve measurement of results of operations.

Pension Trust Fund – The Pension Trust Fund accounts for the funding and payment of pension benefits provided to police officers.

Private Purpose Trust Funds – These funds account for funds held by the Town under various trust arrangements for the benefit of certain individuals.

Agency Funds – These funds account for assets held by the Town as agent for various student groups and other organizations, and for construction deposits held in escrow.

C. CASH EQUIVALENTS

For the purpose of the Statement of Cash Flows, the Town considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

D. INVESTMENTS

The Town has implemented Governmental Accounting Standards Board Statement Number 31. As such, investments are recorded at fair value, except for nonparticipating interest earning investment contracts (i.e. certificates of deposit) which are recorded at amortized cost.

E. ACCOUNTS RECEIVABLE AND TAXES RECEIVABLE

Accounts receivable and taxes receivable, are shown net of an allowance for uncollectible accounts. The allowances are calculated based on the age of the individual receivables.

Property taxes which were levied on July 1, of the current year and other delinquent balances are recorded as receivables.

F. UNBILLED SERVICES RECEIVABLE

Water and sewer revenue is recorded when earned. Customers are billed semi-annually and some commercial customers are billed quarterly. The estimated value of services provided but unbilled at year-end has been included in the accompanying financial statements.

TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

G. INVENTORY

Inventory is maintained on a periodic system and is stated at cost (first in, first out method of inventory valuation). Inventory is generally recorded as expenditures/expenses when consumed.

H. CAPITAL ASSETS AND DEPRECIATION

Capital assets are reported in the Government-Wide Statement of Net Assets, but are not reported in the Governmental Fund Financial Statements.

All capital assets are capitalized at historical or estimated historical cost. Donated capital assets are recorded at fair market value as of the date received. The Town follows the policy of not capitalizing assets with a cost of less than \$5,000 and a useful life of less than 1 year. The estimated historical costs of infrastructure assets (retroactive to January 1, 1979) have been included in the Governmental Activities capital assets.

Depreciation is calculated on the straight-line basis over the following useful lives:

<u>Description</u>	<u>Useful Life</u>
Tanks and structures	100 years
Mains, wells, pumps, hydrants, laterals, connections, filter beds	75 years
Buildings and improvements	25 – 40 years
Machinery and equipment	3 – 10 years
Vehicles	5 – 10 years

I. DEBT PREMIUMS AND ISSUANCE COSTS

In the Governmental Fund Financial Statements, debt premiums and issuance costs are treated as period costs in the year of issue. Debt issuance costs are shown as an “expenditure” and debt premiums are reflected as an “other financing source”.

In the Government-Wide Statements, debt premiums and issuance costs are deferred and amortized over the term of the debt. Debt premiums are presented as an addition to the face amount of the debt payable whereas issuance costs are recorded as other assets.

J. DEFERRED REVENUE

In the Governmental Fund Financial Statements, deferred revenue represents funds received in advance of being owed or receivables which will be collected and included in revenues of future fiscal years. In the General Fund, deferred revenues relate to delinquent property tax receivables and other departmental receivables due as of the balance sheet date.

K. PROPERTY TAXES

The Town is permitted by state law to levy property taxes. Current tax collections for the Town were approximately 98.14% of the total 2010 levy.

TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

The Town's fiscal 2010-2011 property taxes were levied on June 30, 2010 on assessed valuation as of December 31, 2009. Taxes are payable in full or quarterly, at the taxpayer's option. Installments dates are July 31, October 31, January 31 and April 30.

L. COMPENSATED ABSENCES

Under the terms of various contracts and agreements, Town employees are granted vacation and sick leave in varying amounts based on length of service. Vacation benefits are accrued as a liability based on the accumulated benefits earned at June 30. Sick leave benefits are based on the sick leave accumulated at June 30 by those employees who are currently eligible to receive termination payments and those employees for whom it is probable they will become eligible to receive termination benefits in the future. The liability is calculated at the rate of pay in effect at June 30, 2011.

The entire compensated absence liability is reported on the Government-Wide Financial Statements. For Governmental Fund Financial Statements, the amount of accumulated vacation and sick leave has been recorded as a current liability to the extent that the amounts are due to employees that have resigned or retired.

M. ACCRUED LIABILITIES AND LONG-TERM DEBT

All accrued liabilities and long-term debt are reported in the Government-Wide Financial Statements.

For Governmental Fund Financial Statements, the accrued liabilities are generally reported as a governmental fund liability if due for payment as of the balance sheet date regardless of whether they will be liquidated with current financial resources. However, claims and judgments and compensated absences paid from Governmental Funds are reported as a liability in the Fund Financial Statements only for the portion expected to be financed from expendable available financial resources. Long-term debt paid from Governmental Funds is not recognized as a liability in the Fund Financial Statements until due.

N. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. LEGAL DEBT MARGIN

The Town's legal debt margin as set forth by State Statute is limited to 3% of total taxable assessed value which approximates \$184,350,292. As of June 30, 2011, the Town's debt subject to the legal debt margin is \$57,013,711 and the Town is under the debt limit by \$127,336,581. The debt subject to the debt limitation is based on the type of debt that is issued.

NOTE 4 – DEFECIT FUND BALANCE OF INDIVIDUAL FUNDS

As of June 30, 2011 the following funds had deficit fund balances:

School Bond Fund	\$(7,023,593)
SOR Grant	\$(570)
Juvenile Justice	\$(177)

NOTE 5 – CASH DEPOSITS

TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

CUSTODIAL CREDIT RISK – custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the Town will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Town does not have a formal deposit policy for custodial credit risk, but is governed by State Laws as described below. As of June 30, 2011, \$21,403,350 of the Town’s bank balance of \$34,233,407 was exposed to custodial credit risk as follows:

	Bank Balance
Insured (Federal depository insurance funds)	\$ 12,830,057
Collateralized with securities held by pledging financial institution or its agent, in the Town’s name	21,403,350
Uninsured and uncollateralized	-
Total	\$34,233,407

Under Rhode Island general laws, depository institutions holding deposits of the State, its agencies or governmental subdivisions of the State, shall at a minimum, insure or pledge eligible collateral equal to one hundred percent (100%) of the deposits which are time deposits with maturities greater than sixty (60) days. Any of these institutions which do not meet minimum capital standards prescribed by federal regulators shall insure or pledge eligible collateral equal to one hundred percent (100%) of the deposits, regardless of maturity. At June 30, 2011, the Town's uncollateralized deposits with institutions were \$0. These deposits are held by institutions that meet the minimum capital standards prescribed by the federal regulators.

NOTE 6 – INVESTMENTS

General Fund investments are governed by Title 35, Chapter 10, Section 11 of the State’s General Laws. This law generally allows for short-term investments, such as certificate of deposits, money market funds, and obligations guaranteed by the United States Government, etc., with the goal of seeking reasonable income while preserving capital. The Pension Trust Fund investments are not limited by a formal investment policy.

Interest Rate Risk – The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The Town has made it a practice to limit the maturities on General Fund investments to sixty (60) days or less. Information about the exposure of the Town’s securities to this risk is presented below:

<u>Type of Investment</u>	<u>Fair value</u>	<u>Investment Maturities (In Years)</u>

Mutual Funds – Fixed Income is based on an average maturity of 7.83 years for the fund.

Credit Risk – The Town is governed by State Laws that limit investment choices to short-term investments for its public deposits (General Fund). The Town has no investment policy that would further limit its investment choices. The ratings for the Town’s investment are presented above.

Concentration of Credit Risk – The Town does not have any policies that limit the amount that can be invested in any one issuer.

Custodial Credit Risk – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town does not have a policy related to custodial credit risk. The Town’s investments held by the Town’s counterparty are held in the Town’s name.

D. LOANS PAYABLE

The Town of Westerly has entered into four loan agreements with the Rhode Island Clean Water Protection Finance Agency as follows:

Original Loan			
<u>Loan Date</u>	<u>Amount</u>	<u>Interest Rate</u>	<u>Matures</u>
December 15, 1995	\$1,849,000	2.958%	September 1, 1998 - 2 015

December 16, 2004	1,724,300	0.775-1.545%	September 1, 2006 - 2025

The loan proceeds are to be used by the Town for the upgrade of the sewer treatment system. The Agency pays project invoices certified by the Town directly to the contractors or reimburses the Town for costs incurred on the projects. As of June 30, 2011, loans payable of \$6,370,864 are reflected in the Sewer Fund. A due from the Rhode Island Clean Water Protection Finance Agency of \$42,153 is shown for that portion of the loans which have not been advanced as of June 30, 2011. The Town is responsible to drawdown and to repay the full amount of the loan.

The Town has also entered into three loan agreements with the Rhode Island Health and Educational Building Corporation as follows:

Original Loan			
<u>Loan Date</u>	<u>Amount</u>	<u>Interest Rate</u>	<u>Matures</u>

F. OPERATING LEASES

As of June 30, 2011, the Town has several leases for copiers. These leases are considered to be operating leases. Lease expenditures for the year ended June 30, 2011 amounted to \$157,436.

The future minimum rental commitments under the operating leases are as follows:

<i><u>Fiscal Year</u></i> <i><u>Ending June 30,</u></i>	<i><u>Lease</u></i> <i><u>Payment</u></i> <i><u>Requirements</u></i>
2012	\$111,077
2013	46,024
2014	2,473
	<u>\$159,574</u>

NOTE 8 – SHORT TERM DEBT

The Town issued general obligation bond anticipation notes in advance of issuing debt, depositing the proceeds in its School Bond Fund. The notes mature on July 28, 2011.

Short-term debt activity for the year ended June 30, 2011, was as follows:

	<i><u>Beginning</u></i> <i><u>Balance</u></i>	<i><u>Issued</u></i>	<i><u>Redeemed</u></i>	<i><u>Ending</u></i> <i><u>Balance</u></i>
Governmental Activities:				
General obligation bond anticipation notes	\$ -	\$12,650,000	\$ -	\$12,650,000

NOTE 9 – PROPERTY TAXES

The Town is responsible for assessing, collecting, and distributing property taxes in accordance with enabling State legislation. Property tax revenue for fund financial statement purposes is recognized in accordance with Section P70, “Property Taxes” of the Codification of Governmental Accounting and Reporting Standards, which states that such revenue is recorded when it becomes measurable and available. Available means due, or past due and receivable with the current period and collected no longer than 60 days after the close of the current period.

NOTE 10 – INTERFUND RECEIVABLES AND PAYABLES

The Town reports interfund balances between many of its funds. The totals of all balances agree with the sum of interfund balances presented in the fund statements.

Total	<u>\$1,474,811</u>	<u>\$1,474,811</u>

Transfers are used to move revenues from the fund that the budget requires to collect them, to the funds that the budget requires to expend them.

NOTE 12 – NET ASSETS/FUND BALANCES

The Government-Wide Financial Statements utilize a net asset presentation. Net assets are categorized as invested in capital assets, net of related debt; restricted; and unrestricted.

Invested in Capital Assets, Net of Related Debt – This category groups all capital assets into one component of net assets. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.

Restricted Net Assets – This category presents external restrictions imposed by grantors or laws and regulations.

TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

Unrestricted Net Assets – This category represents net assets of the Town, not restricted for any project or other purpose.

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balance is reported in classifications that comprise a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

Nonspendable Fund Balance – This classification includes amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact. The “not in spendable form” criteria includes items that are not expected to be converted to cash (e.g. inventories and tax title property).

Restricted Fund Balance – This classification includes amounts that have constraints placed on the use of resources that are either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance – This classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Town’s highest level of decision-making authority.

Assigned Fund Balance – This classification includes amounts constrained by the Town’s intent to be used for specific purposes, but are neither restricted nor committed.

Unassigned Fund Balance – This classification is the residual fund balance for the General Fund. This classification represents fund balance that has not been assigned to another fund and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

Committed fund balances are established, modified or rescinded by an ordinance or resolution adopted by the Town Council. Assigned fund balances are authorized by the Finance Director. The Town considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The Town considers unrestricted fund balance classifications to be used in the following order when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used: 1) committed; 2) assigned; and 3) unassigned.

NOTE 13 – SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

A. LITIGATION

During the ordinary course of its operations, the Town is a party to various claims, legal actions and complaints. In the opinion of the Town's management and legal counsel, these matters are not anticipated to have a material financial impact on the Town.

B. FEDERALLY ASSISTED PROGRAMS - COMPLIANCE AUDITS

The Town and School Department participate in a number of federally assisted programs. The audits of these programs through the year ended June 30, 2011 were audited in connection with the accompanying financial statements under the Single Audit concept and the auditor's reports thereon are presented in the Single Audit Section of this report.

NOTE 14 – HEALTH FUND

The Town established a Health Fund to account for its health and dental care coverage programs which are accounted for in an Internal Service Fund.

The Town utilizes a "cost plus basis" plan under which the Town pays for the actual cost of covered health care services plus a fee to the provider for the administration of the program.

In order to avoid catastrophic losses, the Town purchases specific stop loss re-insurance. Under the stop loss re-insurance, the Town is covered for \$150,000 in medical claims per person per contract period.

The Town oversees the self-insured program and claims payment services are provided by Blue Cross and Blue Shield of Rhode Island and Delta Dental of Rhode Island, the plan administrators. All funds of the Town participate in the program and make payments to the Health Fund based on recommendations made by the plan administrators.

The claims liability of \$640,239 reported in the Health Fund at June 30, 2011 is based on the requirements of Governmental Accounting Standards Board Statement No. 10 which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

Changes in the Health Fund's claims liability for the past three fiscal years were:

	<i>Beginning Fiscal Year Liability</i>	<i>Current Year Claims and Changes In Estimate</i>	<i>Claims Payments</i>	<i>Balance Fiscal Year End</i>
2008-2009	\$525,524	\$8,124,140	\$7,814,691	\$834,973
2009-2010	834,973	8,331,063	8,426,747	739,289
2010-2011	739,289	7,778,126	7,877,176	640,239

NOTE 15 – RISK MANAGEMENT

The Town of Westerly is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; injuries to employees; and natural disasters for which the Town carries commercial insurance. Settled claims resulting from these risks have not exceeded the Town's coverage in any of the past three fiscal years and there have been no significant reductions in insurance coverage from the prior year.

NOTE 16 – POST RETIRMENT BENEFITS

A. Police Other Postemployment Benefit Plan

Plan Description

The Town of Westerly administers a single-employer, defined benefit post-employment health insurance plan for its police officers through its Police Pension Trust Fund. This plan does not include the pension benefits discussed in Note 20. The plan provides medical and dental insurance for eligible retirees and their dependents through the Town's group health and dental insurance plan, which cover both active and retired members. Benefit provisions are established and amended by the union contract through negotiations between the Town and the Police Officers Union. The plan does not issue a publicly available financial report. The Town implemented GASB Statement No. 45 in fiscal year 2009 on a prospective basis.

Funding Policy

Contribution requirements are negotiated between the Town and the Police Officers Union. The Town is required to contribute the cost of medical and dental benefits for police officers who retire with at least 20 years of service less the amount of any applicable employee share of premiums as follows:

- Employees hired prior to July 1, 1993, shall, upon retirement, contribute the same percentage of medical coverage as they contribute at the time of retirement.
- Employees hired on or after July 1, 1993 and retiring after at least twenty (20) years of active service will pay 15% of the cost of health care coverage at the full mature working rate or monthly premium cost and the Town will pay the balance up to a maximum of \$6,000 per year (\$500 per month) until the employee reaches age 65, after which time the employee will pay 15% of the premium cost or fully mature working rate of Plan 65 and the Town will pay the balance up to a maximum of \$6,000 per year (\$500 per month). Any amounts in excess of \$6,000 shall be borne by the employee.
- Coverage to retirees and spouses includes dental insurance for life and a reimbursement of Medicare Part B premium to retirees only after age 65.

For the year ended June 30, 2011, the Town contribution to the plan was based on the budgeted amount which was less than the annual required contribution. For the fiscal year ended June 30, 2011, the Town contributed \$425,000 to the plan.

Annual OPEB Cost and Net OPEB Obligation

The Town's annual other post-employment benefit (OPEB) cost for the plan is calculated based on the annual required contribution (ARC) for the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial accrued liabilities (or funding excess) over a period not to exceed thirty years.

TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

The following table shows the components of the Town's annual OPEB cost for the year, the amount actually contributed to the plan, and the changes in the Town's net OPEB obligation:

Annual required contribution (ARC)	\$464,700
Interest on net OPEB obligation	8,080
Adjustment to annual required contribution	<u>(8,306)</u>
Annual OPEB cost	464,474
Contributions made	<u>(425,000)</u>
Increase in net OPEB obligation	39,474
Net OPEB obligation, beginning of year	<u>101,000</u>
Net OPEB obligation, end of year	<u>\$140,474</u>

The Town's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the past three fiscal years are as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
6/30/09	\$433,200	84.5%	\$66,950
6/30/10	\$459,050	92.6%	\$101,000
6/30/11	\$464,474	91.5%	\$140,474

Funded Status and Funding Progress

The funded status of the Town's plan as of July 1, 2010, the most recent actuarial valuation, is as follows:

Actuarial Accrued Liability (AAL)	\$13,361,267
Actuarial Value of Plan Assets	<u>7,473,171</u>
Unfunded Actuarial Accrued Liability (UAAL)	<u>\$5,888,096</u>
Funded ratio (Actuarial Value of Plan Assets/AAL)	55.9%
Annual Covered Payroll (Active Plan Members)	\$2,838,895
UAAL as a Percentage of Covered Payroll	207.4%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The Town's annual required OPEB contribution was determined as part of the July 1, 2009 actuarial valuation using the Entry Age Normal actuarial cost method. The actuarial assumptions included: a) 8% investment rate of return, net of expenses, compounded annually; b) medical cost trend rate – 10% per year graded off 1% per year to an ultimate rate of 5% per year for 2012 and after; and c) dental cost trend rate – 4%. The unfunded actuarial accrued liability as of July 1, 2009 is being amortized using the level dollar 30-year closed amortization basis. The actuarial value of assets is equal to fair market value with a 5-year phase-in of the difference between actual and expected investment return at 20% per year.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Examples include assumptions about employment, mortality and healthcare cost trends. Actuarial valuations are subject to continual revision as actual results are compared to past expectations and new estimates are formulated about the future.

B. School Other Postemployment Benefit Plan

Plan Description

The Town of Westerly administers a single-employer, defined benefit post-employment health insurance plan for its teachers. This plan does not include the pension benefits discussed in Note 20. The plan provides medical and dental insurance for eligible retirees and their dependents through the Town's group health and dental insurance plan, which cover both active and retired members. Benefit provisions are established and amended by the union contract through negotiations between the Town and the Westerly Teachers' Association. The plan does not issue a publicly available financial report. The Town implemented GASB Statement No. 45 in fiscal year 2009 on a prospective basis.

Funding Policy

Contribution requirements are negotiated between the Town and the Westerly Teachers' Association (WTA). The Town is required to contribute the cost of medical and dental benefits for teachers who retire less the amount of any applicable employee share of premiums as follows:

- Participants that retired in the 2008/2009 school year receive health insurance coverage for two (2) years under the School Department's self-insured plan. The retiree contributes 20% of the premium per year. In addition, retired members can exchange 35 sick days per year and the contribution of 20% of the annual premium for three (3) additional years of coverage.
- Participants that retired in the 2007/2008 school year receive health insurance coverage for three (3) years under the School Department's self-insured plan. The retiree contributes 10%

of the premium per year. In addition, retired members can exchange 35 sick days per year and the contribution of 10% of the annual premium for two (2) additional years of coverage.

- Participants that retired in the 2006/2007 school year receive health insurance coverage for four (4) years under the School Department’s self-insured plan. The retiree contributes 10% of the premium per year. In addition, retired members can exchange 35 sick days and the contribution of 10% of the premium for one (1) additional year of coverage.
- On May 18, 2011, there was an agreement between the Westerly School Department and the WTA to offer an Early Retirement Incentive (ERI). The ERI is applicable only to those members that agreed in writing to retire effective either: (a) at the end of the 2010/2011 school year, (b) at the end of the 2011/2012 first semester, or (c) at the end of the 2011/2012 school year. Members were required to notify the Superintendent’s office by June 1, 2011 in order to be eligible to participate in the ERI.

Members that elected to participate in the ERI will receive either (a) individual coverage of \$7,000 per year, (b) two persons or more coverage of \$10,000 per year, or (c) for members that weren’t covered by health insurance prior to retirement, a \$10,000 one-time payment, commencing after retirement. The duration of coverage under options (a) and (b) are limited to four (4) years for members who are not Medicare eligible. However, any retired WTA member who is age 65 on or before July 1st in any of the four (4) year period shall no longer be eligible for the payment. WTA members at or above Medicare eligible age at the time of retirement will receive a one-time payment of \$10,000.

For the year ended June 30, 2011, the Town contribution to the plan was on a pay-as-you-go basis. For the fiscal year ended June 30, 2011, the Town contributed \$431,316 to the plan.

Annual OPEB Cost and Net OPEB Obligation

The Town’s annual other post-employment benefit (OPEB) cost for the plan is calculated based on the annual required contribution (ARC) for the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial accrued liabilities (or funding excess) over a period not to exceed thirty years.

Funded Status and Funding Progress

The funded status of the Town's plan as of July 1, 2010, the most recent actuarial valuation, is as follows:

Actuarial Accrued Liability (AAL)	\$974,441
Actuarial Value of Plan Assets	-
Unfunded Actuarial Accrued Liability (UAAL)	<u>\$974,441</u>
Funded ratio (Actuarial Value of Plan Assets/AAL)	0%
Annual Covered Payroll (Active Plan Members)	N/A
UAAL as a Percentage of Covered Payroll	N/A

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

The Town's annual required OPEB contribution was determined as part of the July 1, 2010 actuarial valuation using the projected unit credit actuarial cost method (with service proration). The actuarial assumptions included: a) 4 % discount rate; and b) medical cost trend rate – 8.5% in 2010 graded down by .50% per year until an ultimate rate of 5% in 2017. The unfunded actuarial accrued liability as of July 1, 2010 is being amortized using the level dollar amortization method over 1.9697 years on a closed basis. There is no asset valuation method or investment rate of return assumption since the plan is currently unfunded.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Examples include assumptions about employment, mortality and healthcare cost trends. Actuarial valuations are subject to continual revision as actual results are compared to past expectations and new estimates are formulated about the future.

NOTE 17 – DISAGGREGATION OF RECEIVABLE AND PAYABLE BALANCES

A. ACCOUNTS RECEIVABLE

The Town disaggregates significant components of receivables in the financial statements. Receivable balances determined immaterial are included as other receivables. The Town expects to receive all receivables within the subsequent year. The real estate and personal property tax receivable included an allowance for doubtful accounts of \$1,520,299.

B. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

The accounts payable and accrued liabilities at June 30, 2011, were as follows:

NOTE 20 – PENSION PLANS

A. EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

All Town of Westerly certified school personnel participate in the Employees' Retirement System of the State of Rhode Island ("ERS"), a cost-sharing multiple-employer defined benefit plan administered by the State of Rhode Island. The payroll for employees covered by the ERS for the year ended June 30, 2011 was \$23,782,362.

The State of Rhode Island Employees' Retirement System issues a publicly available annual financial report that includes financial statements and required supplementary information. That report may be obtained from the administrative offices of the State of Rhode Island Retirement Board, 40 Fountain Street, Providence, Rhode Island.

TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

Plan Description

The following eligibility and benefit provisions are established by Rhode Island General Laws, Title 16, Chapter 16-16. All Westerly School Department certified school personnel are eligible to participate in the System if they are certified by the Board of Regents, engaged in teaching as principal occupation and are regularly employed on at least a half time basis. Superintendents, principals, business agents and other administrators participate as teachers. Employees are vested in their retirement benefits upon completion of 10 years of service.

Retirement Eligibility:

(i) Grandfathered Schedule A members – members with at least 10 years of contributory service at June 30, 2005 and eligible for retirement at September 30, 2009 – are eligible to retire on or after age 60 if they have credit for 10 years of service, or at any age if they have credit for 28 years of service.

(ii) Schedule B members – members with less than 10 years of contributory service as of June 30, 2005 and members hired on or after that date – are eligible for retirement on or after age 65 if they have credit for 10 years of service, or on or after age 62 if they have credit for 29 years of service. In addition, a member who attains age 62 with at least 20 years of service credit may retire with an actuarially reduced retirement benefit. The reduction is based on the difference between 65 and the member’s age of retirement.

(iii) Schedule A members who are not grandfathered i.e., members who had at least 10 years of creditable service at June 30, 2005 but who were not eligible to retire on September 30, 2009, will be eligible for retirement at an individually determined age. This age is the result of interpolating between the retirement age under the rules applicable to grandfathered employees in (i) above and the retirement age applicable to members hired after September 30, 2009 in (ii) above. The interpolation is based on service as of September 30, 2009 divided by projected service at the retirement age under (i) above.

Monthly Benefit:

The retirement benefit is a percentage of the member’s monthly final average compensation (FAC). For members eligible to retire as of September 30, 2009, their FAC will be based on the highest three consecutive annual salaries. For members not eligible to retire as of September 30, 2009, their FAC will be based on the highest five consecutive years of salary. Monthly benefits are based on one-twelfth of this amount. The percentage is a function of the member’s service as described below.

(i) For grandfathered Schedule A members (members with at least 10 years of contributory service at June 30, 2005 and eligible for retirement as September 30, 2009), benefits are based on the following schedule (Schedule A):

<u>For Service In:</u>	<u>Years</u>	<u>Benefit Percentage Earned</u>
The first 10 years of service	1-10	1.7% per year
The next 10 years of service	11-20	1.9% per year
The next 14 years of service	21-34	3.0% per year
The next 1 year of service	35	2.0% per year

The maximum benefit is 80% of FAC.

TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

(ii) For Schedule B members (members with less than 10 years of contributory service as of June 30, 2005) and for all future hires, benefits are based on the following schedule (Schedule B):

<u>For Service In:</u>	<u>Years</u>	<u>Benefit Percentage Earned</u>
The first 10 years of service	1-10	1.6% per year
The next 10 years of service	11-20	1.8% per year
The next 5 years of service	21-25	2.0% per year
The next 5 years of service	26-30	2.25% per year
The next 7 years of service	31-37	2.50% per year
The next 1 year of service	38	2.25% per year

The maximum benefit is 75% of FAC.

(iii) For Schedule A members who are not grandfathered, i.e., members who had at least 10 years of creditable service at June 30, 2005 but who were not eligible to retire on September 30, 2009, benefits are based on Schedule A (under (i) above) for service through September 30, 2009 and on Schedule B (under (ii) above) for service after September 30, 2009. The maximum benefit is 80% of FAC.

Post-Retirement Benefit Increase:

(i) For members with at least 10 years of contributory service as of June 30, 2005 who are retired or eligible to retire as of September 30, 2009, and for all members receiving a disability retirement benefit on that date: a 3.00% compound increase in their retirement benefit each year, beginning in January of the year in which the member reaches the third anniversary of retirement. This increase is not a function of actual increases in the cost of living.

(ii) For other members who retired or were eligible to retire as of June 30, 2010: a compound increase in their retirement benefit each year equal to the increase in the CPI, effective on each anniversary date beginning on the third anniversary of retirement. This increase is limited to 3.00%.

(iii) For other members who were not retired or were not eligible to retire as of June 30, 2010: a compound increase in their first \$35,000 of annual retirement benefit each year equal to the increase in the CPI, effective on each anniversary date beginning on the later of the member's third anniversary of retirement and the month following their 65th birthday. This increase is limited to 3.00%. Additionally, the \$35,000 annual COLA limit is applicable for benefits paid in 2010 and would be indexed annually to increase in the same manner as COLAs for Schedule B members (CPI for the year, not greater than 3.0%).

Funding Policy

Covered employees are required by State Statute to contribute 9.5% of their salary to the plan. The State and the School Department are required to contribute an amount determined annually by the actuary and as provided by State Statute. The split between State and the School Department is specified by State Statute. The contribution requirement for fiscal 2010-2011 is 19.01%. The Teachers' Plan cost is paid 60% by the School Department and 40% by the State. However, the State will pay the total cost of the contribution deferrals which were .26%. This results in a contribution requirement for the School of 11.25% and a contribution requirement for the State of 7.76%.

TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

The State contribution for the cut-off year ended June 30, 2011 was \$1,807,048 which represented 7.6% of covered payroll. The payments made by the State to the Employees' Retirement System are considered on-behalf payments and are reported as a revenue and as an expenditure in the financial statements. The School's contribution requirement for the cut-off year ended June 30, 2011 was \$4,973,303 which consisted of \$2,713,979 from the School Department, and \$2,259,324 from employees. These contributions represented 11.41% and 9.5% of covered payroll respectively. The annual required contribution was determined as part of the June 30, 2008 actuarial valuation.

The School Department does not have any investments or related party investments with the ERS. The School Department contribution represented 2.22% of total contributions required of all participating entities.

Three-Year Trend Information

<i>Fiscal Year</i>	<i>Annual Required Contribution</i>	<i>Percentage Contributed</i>
2009	\$2,920,341	100%
2010	\$2,639,227	100%
2011	\$2,713,979	100%

B. MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

The Town of Westerly participates in the Municipal Employees' Retirement System ("MERS"), an agent multiple employer defined benefit plan administered by the State of Rhode Island. One current Town employee and eight retirees participate in the MERS. The payroll for the employee covered by the MERS for the year ended June 30, 2011 was \$65,976.

The State of Rhode Island's Municipal Employees' Retirement System issues a publicly available annual financial report that includes financial statements and required supplementary information. That report may be obtained from the administrative offices of the State of Rhode Island Retirement Board, 40 Fountain Street, Providence, Rhode Island.

Plan Description

The following eligibility and benefit provisions are established by Rhode Island General Laws, Title 45, Chapter 19, 19.1, 21, 21.1, 21.2 and 21.3 and may be amended by State Statute. The MERS generally provides retirement benefits equal to 2% of a member's final average compensation multiplied by the number years of total service up to 37.5 years, with a maximum benefit of 75% of final average compensation. Final average compensation is the average of the three highest consecutive years of annual earned compensation exclusive of overtime, bonuses or severance pay. Such benefits are available to general members at or after age 58 with 10 years of service or after 30 years regardless of age. Under the 25-year service normal pension plan, police and firefighters may retire with unreduced accrued benefits at or after age 55 with 10 years of service or after 25 years regardless of age. The benefit accrual rate is 2% of final average compensation per year of service. If the municipality elects the 20-year retirement provisions, police and firefighters may retire at any age

after 20 years of service. This optional plan provides a benefit equal to 2.5% of final average compensation per year of service up to 30 years. The maximum benefit is 75% of final average compensation under both the normal plan and the optional plan. Early retirement is only available to police and firefighters under the normal plan. The plan also provides non-service connected disability benefits after 5 years of service, service connected disability benefits with no minimum service requirement, survivors' benefits, and certain lump sum death benefits. Employees are vested in their retirement benefits upon the completion of 10 years of service. Members employed by municipalities who elect one of the optional COLA provisions receive an increase equal to 3% of the original retirement benefit each year, beginning January 1 following the member's retirement.

Funding Policy

General employees are required by State Statute to contribute 6% of their annual earnings. The contribution rate is increased to 7% with the optional cost-of-living provision. Police and firefighters are required by State Statute to contribute 7%. The contribution rate is increased to 8% with the optional cost-of-living provision. The contribution rate is increased by an additional 1% for the 20-year service plan. The Town is required to contribute based on an actuarially determined amount and as provided by State Statute for each participating municipality. The Town's rate for fiscal year 2010-2011 was 53.4% for general employees.

Annual Pension Cost

For 2010-2011, the Town's annual pension cost of \$35,208 for the MERS was equal to the Town's required and actual contributions.

Three-Year Trend Information
General Municipal Employees

<u>Fiscal Year</u>	<u>Annual Pension Cost</u>	<u>Percentage of APC Contributed</u>	<u>Net Pension Obligation</u>
2009	\$40,802	100%	-
2010	\$33,939	100%	-
2011	\$35,208	100%	-

The required contribution was determined as part of the June 30, 2008 actuarial valuation. The actuarial method used is the entry age actuarial cost method. Under this method, the employer contribution rate is the sum of (i) the employer normal cost rate, and (ii) a rate that will amortize the unfunded actuarial accrued liability. Significant actuarial assumptions used in the June 30, 2008 valuation include the following:

- 1) Investment return – 8.25% per year, compounded annually, composed of an assumed 3.0% inflation rate and a 5.25% net real rate of return
- 2) Projected salary increases – for general employees, the sum of a 4.5% wage inflation assumption (composed of a 3% price inflation assumption and a 1.5% additional general increase) and a service related component

TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

- 3) Cost of living adjustment – 3%, not compounded

The actuarial value of assets is based on market value of assets with a five year phase-in of actual investment return in excess of (less than) expected investment income. The MERS' unfunded actuarial accrued liability is being amortized over 30 years as a level percentage of payroll on a closed basis. The remaining amortization period at June 30, 2008 was 21 years.

Funded Status and Funding Progress

As of June 30, 2010, the most recent actuarial valuation date, the general employees plan was 33.5% funded. The actuarial accrued liability for benefits was \$1,014,788, and the actuarial value of assets was \$339,662, resulting in an unfunded actuarial accrued liability (UAAL) of \$675,126. The covered payroll (annual payroll of active employees covered by the plan) was \$64,658, and the ratio of the UAAL to the covered payroll was 1044.2%. The June 30, 2010 actuarial valuation used the same methods and assumptions described above under Annual Pension Cost, except the investment rate of return was reduced to 7.5% and projected salary increases for general employees were reduced to 4%.

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

C. LABORERS' INTERNATIONAL UNION OF NORTH AMERICA NATIONAL PENSION FUND

All Town non-salaried general employees participate in the Laborers' International Union of North America National Pension Fund, a cost sharing multiple-employer defined benefit plan.

Plan Description

All Town non-salaried general employees are eligible to participate in the Plan. An employee is eligible to receive pension benefits if they have attained age 62, have five or more years of pension credit and have earned at least one of the years of pension credit during the period that his or her employer is contributing to the Plan. The amount of regular pension benefits payable to an employee is determined by the highest contribution rate at which he or she earned pension credit and years of pension credits earned (up to a maximum of 30 years of pension credits). The regular monthly benefit is payable for each year of pension credit at each contribution rate accepted by the Plan up to \$1.86 per hour. The Plan also provides death and disability benefits. Information regarding the Plan can be obtained from the Fund Office maintained by the Board of Trustees at the following address: Laborers' International (Industrial) Pension Fund, 905 16th Street, N.W., Washington, DC 20006-1765 or on the internet at www.lnipf.org.

Funding Policy – The contribution requirements of the Town and employees are established by contract and may be amended by union negotiation. Employees are not required to contribute to the plan. The Town was required to contribute the following amounts for fiscal year 2011: bus drivers and aides - \$1.26 per hour up to a maximum of 40 hours per week; School maintenance, secretarial and clerical employees - \$1.59 per hour; and Town public works and secretarial employees - \$1.59 per hour for employee's normal workweek. The total Town contribution for fiscal year 2011 was \$570,512.

D. POLICE PENSION PLAN

Plan Description

The Town of Westerly is the administrator of a single-employer defined benefit pension plan established and administered by the Town to provide pension benefits for its police officers. The Plan is considered to be a part of the Town of Westerly's financial reporting entity and is included in the Town's financial statements as a pension trust fund. The Town does not issue a separate report for the Police Plan that includes financial statements and required supplementary information (RSI). At July 1, 2010, employee membership related to the plan was as follows:

Retirees and beneficiaries currently receiving benefits	45
Terminated employees entitled to benefits but not yet receiving them	1
Active members	45
Total	<u>91</u>

The Police Pension Plan provides retirement, death and disabilities benefits. All regular police officers are eligible to participate. Members are 100% vested after 10 years of service. Normal retirement is after the completion of 20 years of service. The retirement benefit is calculated at 50% of annual pay for 20 years of service plus 2% times annual pay for each year of service over 20 years (maximum service equals 25 years). Annual pay at retirement is a sum equal to the base salary received for the 12 months immediately preceding retirement. The normal form of benefit is 67.5% Joint and Survivor. If a member leaves covered employment or dies before vesting, accumulated member contributions are refunded with interest. If a member dies in the line of duty, the member's heirs shall receive the same benefits as though they had been members of the bargaining unit for 20 years. Retired members are entitled to a 3% cost of living adjustment, not compounded, each year (2 1/2% if retired before July 1, 1998). Disability retirement for occupational causes equals 50% of annual pay at time of disability. Non-occupational causes receive a lower percentage varying by years of service at time of disability. Members who retire with 25 or more years of service shall receive severance pay based on 1.5 days for each year of service at retirement.

Benefit provisions are established by contract and may be amended by union negotiation.

Summary of Significant Accounting Policies

Basis of Accounting – The Police Pension Trust Fund financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized as revenues in the period the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide contributions. Benefits and refunds are recognized when due and payable with the terms of the plan.

TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

Method Used to Value Investments – Investments are reported at fair value.

Funding Policy

The contribution requirements of the members and the Town are established by contract and may be amended by union negotiation. Active plan members contribute 11% of their covered earnings. The Town has an actuarial valuation to determine the annual required contribution, but does not fund the plan based on the valuation. The Town funds the plan based on the annual budget.

Annual Pension Cost and Net Pension Obligation – The Town’s annual pension cost and net pension obligation to the Police Plan for the current year were as follows:

Annual required contribution	\$1,500,380
Interest on net pension obligation	233,936
Adjustment to ARC	<u>(240,477)</u>
Annual pension cost	1,493,839
Contributions made	<u>(1,275,000)</u>
Increase in net pension obligation	218,839
Net pension obligation – beginning of year	<u>2,924,196</u>
Net pension obligation – end of year	<u><u>\$3,143,035</u></u>

Three-Year Trend Information

<i>Fiscal Year</i>	<i>Annual Pension Cost (APC)</i>	<i>Percentage of APC Contributed</i>	<i>Net Pension Obligation</i>
2009	\$1,243,881	88.3%	\$2,746,841
2010	\$1,452,355	87.8%	\$2,924,196
2011	\$1,493,839	85.4%	\$3,143,035

The required contribution was determined as part of the July 1, 2009 actuarial valuation using the Entry Age Normal actuarial cost method. The actuarial assumptions included (a) 8% investment rate of return, net of expenses, compounded annually; (b) projected salary increases of 3-16% based on years of service; and (c) cost of living adjustment of 3%, not compounded, for members retiring after July 1, 1998 and 2.5%, not compounded, for members retiring before July 1, 1998. The actuarial value of assets is the market value of assets with a 5-year phase-in at 20% per year of actual investment return in excess of (less than) expected investment return (prior valuations used market value). The unfunded actuarial accrued liability is being amortized using the level dollar method on a closed basis. The amortization period remaining as of July 1, 2009 was 30 years.

Funded Status and Funding Progress – As of July 1, 2010, the most recent actuarial valuation, the Police Plan was 55.2% funded. The actuarial accrued liability for benefits was \$29,257,507, and the actuarial value of assets was \$16,145,954, resulting in an unfunded actuarial accrued liability (UAAL) of \$13,111,553. The covered payroll (annual payroll of active employees covered by the plan) was \$2,838,895, and the ratio of the UAAL to covered payroll was 461.9%. The July 1, 2010 actuarial valuation used the same assumptions and methods discussed above under Annual Pension Cost and Net Pension Obligation.

TOWN OF WESTERLY, RHODE ISLAND
Notes to Financial Statements
June 30, 2011

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

E. INTERNATIONAL CITY MANAGEMENT ASSOCIATION (ICMA) PENSION PLAN

General salaried employees hired after February, 1981 were eligible to participate in this defined contribution plan. This plan was then deemed ineligible by IRS codification. As of September 1, 1995 a new plan was initiated with International City Management Association. At that time all employees of the old plan were required to contribute to the new plan. The old plan (E) will remain open because the funds cannot be transferred to the new plan (see F below). Benefits depend solely on amounts contributed to the plan plus investment earnings. Employees were required to contribute 6% or more of their income to a maximum of 25% not to exceed \$7,500. The Town contributed 10% of the qualified salary.

F. INTERNATIONAL CITY MANAGEMENT ASSOCIATION (ICMA) PENSION PLAN

General salaried employees hired after February, 1981 were eligible to participate in this defined contribution plan created as of September 1, 1995. Previously, these employees contributed to a defined contribution plan with the International City Management Association established as a 457(b) deferred compensation plan (see E above). The benefits in this plan, a 401(a) qualified pension plan, depend solely on amounts contributed to the plan plus investment earnings. Employees contribute 6% or more of their qualified salary to a maximum of 25% not to exceed \$30,000. The Town contributes 10% of the qualified salary. Plan provisions and contribution requirements are established and may be amended by the Town Council.

G. SCHOOL DEPARTMENT PENSION PROGRAM

All School Department unaffiliated, classified, appointed employees participate in an agreed-upon pension program, which is funded by the School Department. The School Department's contribution is 10% of the qualified employee's salary per year. The employees do not contribute to the plan. The contributions are made to an eligible plan of the employee's choice. All School employees are eligible by federal law to participate in a payroll deduction tax deferred plan, which must be arranged by a broker or private insurance carrier. Contributions for fiscal year 2011 amounted to \$110,409.

(1) Prior to July 1, 2007, UAAL was the Unfunded Frozen Initial Liability (UFIL) under the Frozen Initial Liability actuarial cost method. UFIL is the Present Value of Future Amortization Payments. AAL under that method was not directly calculated. It is set to AVA + UFIL.

As of July 1, 2007, the funding method was changed to the Entry Age Actuarial Cost Method. UAAL is directly calculated under this method.

(2) Effective July 1, 2007, assets and liabilities for the pension and OPEB portions of the plan will be tracked separately and separate Annual Required Contributions (ARC'S) under GASB 25/27 and GASB 43/45 will be calculated.

NOTE 2 - BUDGETARY DATA AND BUDGETARY COMPLIANCE

In accordance with the Town’s Charter, the Town has formally established budgetary accounting control for its General Fund. It is the responsibility of the Town Manager to submit a proposed General Fund budget to the Town Council and the Board of Finance. The General Fund budget includes the Municipal budget and School Department budget. The proposed School Department budget is approved by the School Committee and presented to the Town Manager. The Board of Finance has the power to recommend revisions to any School Department budget item and must conduct one public hearing after a tentative School budget is formed. The Board of Finance must also review the proposed Municipal budget and make revisions as appropriate and hold one public hearing on the Municipal budget. The Town Council may then revise and adopt a recommended General Fund budget including changes to the School Department appropriation. At least two public hearings are conducted on the recommended General Fund budget and the final recommended budget is legally enacted through an ordinance by the Town Council prior to the start of the fiscal year. The General Fund’s annual operating budget is not in conformity with accounting principles generally accepted in the United States of America. The budget to actual presentation in the financial statements for the General Fund is presented on a budgetary basis. The difference between the budgetary basis and the accounting principles generally accepted in the United States of America basis is explained below.

The Town of Westerly makes use of carry forwards. Every appropriation, except an appropriation for a capital expenditure, lapses at the close of the fiscal year to the extent that it has not been expended or encumbered. An appropriation of a capital expenditure continues in force until the purpose for which it was made has been accomplished or abandoned. The purpose of any such appropriation is deemed abandoned if three years pass without any disbursement from or encumbrance of the appropriation.

Appropriations in addition to those contained in the annual operating budget require Town Council approval. Amendments to the operating budgets that do not result in additional appropriations may be made within a department by means of a transfer. The Town Manager has authority to make such transfers within departments. Transfers made outside the departmental level require Town Council approval. The level at which General Fund expenditures may not legally exceed appropriations is at the department level.

The table below shows the amounts by which certain municipal department expenditures exceeded fiscal year 2011 appropriations:

STATISTICAL SECTION

The Statistical Schedules differ from other financial statement presentations because they generally disclose more than one fiscal year and may present non-accounting data such as social and economic data and financial trends of the Town.

Statistical Section

This part of the Town of Westerly's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Town's overall financial health.

<u>Contents</u>	<u>Page(s)</u>
------------------------	-----------------------

Financial Trends	112-116
-------------------------	----------------

These schedules contain trend information to help the reader understand how the Town's financial position has changed over time.

Revenue Capacity	117-120
-------------------------	----------------

These schedules contain information to help the reader understand and assess the factors affecting the Town's ability to generate its most significant local revenue sources, the real and personal property tax .

Debt Capacity	121-123
----------------------	----------------

These schedules present information to help the reader assess the affordability of the Town's current levels of outstanding debt and the Town's ability to issue additional debt in the future.

Economic and Demographic Information	124-126
---	----------------

These schedules offer economic and demographic indicators to help the reader understand the environment within which the Town's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.

Operating Information	127-128
------------------------------	----------------

These schedules contain service and infrastructure data to help the reader understand how the information in the Town's financial report relates to the services the Town provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the annual financial statements for the relevant year. The Town implemented GASB Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.

SINGLE AUDIT SECTION

This section contains information regarding grant activity for the year ended June 30, 2011 which was audited under the guidelines of the Single Audit Act of 1996 and the United States Office of Management and Budget's Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations".

***REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS***

To the Honorable President and
Members of the Town Council
Westerly, Rhode Island

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Westerly, Rhode Island, as of and for the year ended June 30, 2011, which collectively comprise the Town of Westerly, Rhode Island's basic financial statements and have issued our report thereon dated January 6, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

Management of the Town of Westerly, Rhode Island is responsible for establishing and maintaining an effective internal control over financial reporting. In planning and performing our audit, we considered the Town of Westerly, Rhode Island's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Westerly, Rhode Island's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Town of Westerly, Rhode Island's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 11-01 to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Westerly, Rhode Island's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to the management of the Town of Westerly, Rhode Island in a separate letter dated January 6, 2012.

The Town of Westerly, Rhode Island's responses to the findings identified in our audit are described in the accompanying schedule and findings and questioned costs. We did not audit the Town of Westerly, Rhode Island's responses and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the Town Council, the School Committee, the State of Rhode Island Auditor General and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

***REPORT ON COMPLIANCE WITH REQUIREMENTS
THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE
WITH OMB CIRCULAR A-133***

To the Honorable President and
Members of the Town Council
Westerly, Rhode Island

Compliance

We have audited the Town of Westerly, Rhode Island's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Town of Westerly, Rhode Island's major federal programs for the year ended June 30, 2011. The Town of Westerly, Rhode Island's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the Town of Westerly, Rhode Island's management. Our responsibility is to express an opinion on the Town of Westerly, Rhode Island's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Town of Westerly, Rhode Island's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Town of Westerly, Rhode Island's compliance with those requirements.

As described in item 11-02 in the accompanying schedule of findings and questioned costs, the Town of Westerly, Rhode Island did not comply with requirements regarding allowable costs/cost principles that are applicable to its Title II – Improving Teacher Quality program, Title I Part A Cluster and Special Education Cluster. Compliance with such requirements is necessary, in our opinion, for the Town of Westerly, Rhode Island to comply with the requirements applicable to that program.

In our opinion, except for the noncompliance described in the preceding paragraph, the Town of Westerly, Rhode Island complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

Management of the Town of Westerly, Rhode Island is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Town of Westerly, Rhode Island's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of Westerly, Rhode Island's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified a deficiency in internal control over compliance that we consider to be a material weakness.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 11-02 to be a material weakness.

The Town of Westerly, Rhode Island's responses to the findings in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the Town of Westerly, Rhode Island's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of management, the Town Council, the School Committee, the State of Rhode Island Auditor General, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

SECTION II – FINANCIAL STATEMENT FINDINGS

Capital Assets

11-01 Material Weakness - The Town does not have formal policies and procedures in place to properly account for the Town's construction in progress, capital assets, accumulated depreciation and depreciation expense on a perpetual basis and only updates the detail schedule of capital assets after year-end. The Town also does not have procedures in place to account for the disposal of capital assets. As a result of the Town's lack of policies and procedures, we had to propose several material audit adjustments to add capital assets and construction in progress omitted from the Town's capital asset schedules.

The Town is also not recording the capital asset transactions to the Enterprise Funds on the general ledger. We had to propose audit adjustments to record all current year capital asset transactions, including additions and transfers from construction in progress, capital asset additions and depreciation expense.

Recommendation - We recommend that the Town establish formal policies and procedures to account for the addition, deletion and adjustments to capital assets, construction in progress and depreciation expense on a perpetual basis. The Town did complete a physical inventory of the Public Works Department capital assets and we recommend that the Town perform for all departments, at least an annual physical inventory that is reconciled to schedule of capital assets.

We also recommend that the Town record, at least at year-end, all capital assets transactions to the general ledger for all Enterprise Funds and reconcile the detail capital assets schedules to the general ledger.

These procedures are necessary to ensure that the proper recording and safeguarding of the Town's capital assets.

Management's Response - The Town has made and is in the process of reorganizing the finance department. These changes are in response to these issues. The purchasing agent, previously part of the Town Manager Department, has been moved into the Finance Department. Moving this position has improved the communication of purchase activity. Procedures in the accounts payable process have been put in place that when invoices are sent from departments they are reviewed and those items not identified as capital but are potentially capital items are flagged, and sent to accounting for a determination. The Town has contracted with its software vendor (MUNIS) for a review of existing software, and needed upgrades with a focus on the purchasing and capital asset maintenance area. This study is to be performed in February 2012.

TOWN OF WESTERLY, RHODE ISLAND
Schedule of Findings and Questioned Costs
For the Fiscal Year Ended June 30, 2011

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

Finding: 11-02 - Allowable Costs/Cost Principles
Agency: U.S. Department of Education
Programs: Special Education Cluster; Title I, Part A Cluster; Title II – Improving Teacher Quality
Pass-through entity: R.I. Department of Education
CFDA Number: 84.027A; 84.173A; 84.391; 84.392; 84.010A; 84.389; 84.367A

Criteria - Attachment B of OMB Circular A-87 “*Cost Principles for State, Local, and Indian Tribal Governments*” states that wages, salaries and fringe benefits charged to federal awards are allowable only to the extent that they are determined and documented as provided in Section 8(h). Specifically, where employees work solely on a single Federal award or cost objective, charges for their salaries and wages will be supported by periodic certifications that the employees worked solely on that program for the period covered by the certification. These certifications must be prepared semi-annually and signed by the employee or supervisory official having first hand knowledge of the work performed by the employee. Where employees work on multiple activities or cost objectives, a distribution of their salaries or wages will be supported by personnel activity reports or equivalent documentation. Personnel activity reports or equivalent documentation must reflect after-the-fact distribution of the actual activity of the employee and must account for the total activity for which the employee was compensated. Personnel activity reports must be prepared at least monthly and must coincide with one or more pay periods. Finally, personnel activity reports must be signed by the employee. Budget estimates or other distribution percentages determined before the services are performed **do not qualify** as support for the charges to Federal awards.

Condition - Although the School Department has established procedures to ensure compliance with time certification and documentation requirements, during the tests of controls and compliance, we noted that time certifications were not prepared for employees charged to the Title II - Improving Teacher Quality grant and five employees charged to the Title I, Part A Cluster and Special Education Cluster did not complete time certifications for the period January 2011 through June 2011. We also noted several instances where personnel activity reports were not signed by the employee and/or supervisor.

Questioned Costs – N/A

Recommendation - We recommend that the School Department ensure that all employees charged to Federal grants who work on a single cost objective complete semi-annual certifications and that all employees charged to Federal grants who work on multiple cost objectives complete personnel activity reports as required by OMB Circular A-87. The School Department should also review its procedures to ensure employees are completing the appropriate documentation (e.g. semi-annual certifications versus personnel activity reports) and that personnel activity reports coincide directly with pay periods. We also recommend that the School Department ensure all semi-annual certifications and personnel activity reports are signed by the employee or supervisor as required by OMB Circular A-87.

TOWN OF WESTERLY, RHODE ISLAND

Schedule of Findings and Questioned Costs

For the Fiscal Year Ended June 30, 2011

Management's Response - The School Department does not have a human resources department. As part of the finance department reorganization, a separate human resource department was established January 1, 2012. This department reports directly to the Superintendent and main charge is to insure that employees are properly classified, any required certifications are in place, and all time for employees is properly recorded and verified.

For the Fiscal Year Ended June 30, 2011*

Prior Year Finding: 10-02 - Allowable Costs/Cost Principles
Agency: U.S. Department of Education
Programs: Special Education Cluster; Title I, Part A Cluster; Title II – Improving Teacher Quality
Pass-through entity: R.I. Department of Education
CFDA Number: 84.027A; 84.173A; 84.391; 84.392; 84.010A; 84.389; 84.367A

Criteria - Attachment B of OMB Circular A-87 “*Cost Principles for State, Local, and Indian Tribal Governments*” states that wages, salaries and fringe benefits charged to federal awards are allowable only to the extent that they are determined and documented as provided in Section 8(h). Specifically, where employees work solely on a single Federal award or cost objective, charges for their salaries and wages will be supported by periodic certifications that the employees worked solely on that program for the period covered by the certification. These certifications must be prepared semi-annually and signed by the employee or supervisory official having firsthand knowledge of the work performed by the employee. Personnel activity reports or equivalent documentation must reflect after-the-fact distribution of the actual activity of the employee and must account for the total activity for which the employee was compensated. Personnel activity reports must be prepared at least monthly and must coincide with one or more pay periods. Finally, personnel activity reports must be signed by the employee. Budget estimates or other distribution percentages determined before the services are performed **do not qualify** as support for the charges to Federal awards.

Condition - Although the School Department has established procedures to ensure compliance with time certification and documentation requirements, during the tests of controls and compliance, the auditors noted that time certifications were not prepared for employees charged to the Title II - Improving Teacher Quality grant. The auditors also noted several instances where personnel activity reports were not signed by the employee and/or supervisor.

Questioned Costs - \$131,495

Recommendation - The auditors recommended that the School Department ensure that all employees charged to Federal grants who work on a single cost objective complete semi-annual certifications and that all employees charged to Federal grants who work on multiple cost objectives complete personnel activity reports as required by OMB Circular A-87. The School Department should also review its procedures to ensure employees are completing the appropriate documentation (e.g. semi-annual certifications versus personnel activity reports) and that personnel activity reports coincide directly with pay periods. The auditors also recommend that the School Department ensure all semi-annual certifications and personnel activity reports are signed by the employee or supervisor as required by OMB Circular A-87.

TOWN OF WESTERLY, RHODE ISLAND

Summary Schedule of Prior Audit Findings

For the Fiscal Year Ended June 30, 2011

Status – The School Department has established procedures to ensure compliance with time certification and documentation requirements. We believe that these procedures meet the requisites of Attachment B of OMB circular A-87, including Section 8(h) thereof, and the auditors have not suggested otherwise. We will, in the future, take all reasonable steps to assure full and uniform compliance with this requirement by all employees to whom the requirement applies. In this regard, we will conduct a periodic sample review and informal audit of pertinent documentation as to employees paid in whole or in part under this grant, and we will address promptly any issues which arise from them.
