To the Citizens of Westerly, Rhode Island

The comprehensive annual financial report of the Town of Westerly, Rhode Island, for the fiscal year ended June 30, 2013, is hereby submitted as mandated by state statute. State laws require that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants licensed to practice in the State of Rhode Island. The Town of Westerly requested and received an extension by the Rhode Island Attorney General.

This report consists of management's representations concerning the finances of the Town of Westerly, Rhode Island. Consequently, management assumes full responsibilities for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the Town of Westerly, Rhode Island has established a comprehensive internal control framework that is designed to both protect the government's accounts from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Town of Westerly's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Town of Westerly's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute assurance that the financial statements will be free from material misstatement. As management, I assert that, to the best of my knowledge and belief, this financial report is complete and reliable in all material respects.

The Town of Westerly's financial statements have been audited by BlumShapiro, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Town of Westerly for the fiscal year ended June 30, 2013, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unqualified opinion, that the Town of Westerly's financial statement for the fiscal year ended June 30, 2013, are fairly presented in conformity with GAAP. The independent auditor's report is present as the first component of the financial section of this report.

The independent audit of the financial statements of the Town of Westerly was part of the broader, federally mandated “Single Audit” designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentations of the financial statements, but also on the audited government’s internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are included in the Single Audit section of this report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Town of Westerly’s MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE GOVERNMENT

General

The Town of Westerly, incorporated in 1669, is in the southwest corner of the State of Rhode Island, bounded on the west by the town of Stonington, Connecticut, on the North by the towns of North Stonington, Connecticut and Hopkinton, Rhode Island, on the east by the town of Charlestown, Rhode Island, and on the south by the Atlantic Ocean. Covering 32.5 square miles, Westerly is located approximately 42 miles from Providence, Rhode Island, 60 miles from Hartford, Connecticut, 80 miles from Boston, Massachusetts, and 130 miles from New York City, New York.

The Town has a population of 20,311 (2010 Census) up 1.4% from the 2000 census. In 2009, the Town’s median family income was \$52,946, and the median value of owner occupied housing was \$310,000 (source US Census Bureau). Not reflected in the Census statistics is the above average income of the more than 17,000 summer inhabitants of the Town who contribute to the Town’s economy, nor the value of vacation homes located along the Town’s coastal areas.

Westerly is an economically diverse residential community with a well established commercial base, small pockets of industry and recreational facilities. Due to its many miles of salt water beaches and ocean frontage, the Town is a well known vacation and tourist center, and part of Rhode Island’s South County summer vacation area. Stately summer residences located in the Watch Hill area along with summer cottage colonies located in the Misquamicut, Weekapaug and Shelter Harbor areas of the Town add substantially to the Town’s tax base.

Government

The Town of Westerly, established in 1669, operates under a Home Rule Charter adopted in 1968, which provides for a council/manager form of government. The Town Council, comprised of seven members elected at large who each serve two year terms, is vested by the Charter with all legislative powers of the Town, including the ordering of any tax, making appropriations, and transacting any other business pertaining to the financial affairs of the Town. The Charter grants to the Town Council all powers to enact, amend, or repeal ordinances related to the Town's property, affairs, and government. The Council also has the power relating to the Town's property, affairs, and government. The Council also has the power to authorize the issuance of bonds or notes by resolution, subject to approval by a majority of electors voting who are qualified to vote on financial matters of the Town.

The Town Council appoints the Town Manager for an indefinite term solely on the basis of their executive and administrative qualifications and experience. The Town Manager is the chief executive officer and the head of the administrative branch of the Town government. The Town Manager is responsible for carrying out the policies of the Town Council, for overseeing the day to day operations of the Town, and for appointing all other employees, except for School Department personnel.

The Town provides a full range of municipal services including public safety protection, the construction and maintenance of highways, streets and other infrastructure, libraries, recreational activities, planning and zoning, education and administrative services. In addition, the Town operates water, sewer and solid waste utility systems.

The annual budget serves as the foundation for the Town of Westerly's financial planning and control. All departments of the Town are required to submit requests for appropriation and revenue estimates to the Town Manager on or before December 28th of each year. The School Committee submits the proposed school budget by the first Monday of February each year. The Town Manager uses these requests as the starting point for developing a proposed budget. It is the responsibility of the Town Manager to submit a proposed budget for the following fiscal year to the Board of Finance on or before the third Monday of February of each year. The Town Council and Board of Finance hold several budget work sessions to discuss the details of the proposed budget document. The Town council may revise and adopt a preliminary budget not later than the fourth Wednesday in April of each year.

Following adoption of the preliminary budget by the Council, any qualified elector of the Town may circulate and file a petition contesting any of the proposed budget items, within eight (8) days of the publishing of the budget. If no petition is filed by this date, the budget is considered adopted. If there is a petition, a referendum must be held within 35 days of the date the Board of Canvassers validates the signatures on the budget petition.

The appropriated budget is prepared by fund, major program function (e.g., public safety) and department (e.g., police). Department heads may make transfer of appropriation within a department. Transfers with a major program function may be made by the Town Manager, provided that proper notification is given to the town Council.

Budget to actual comparisons are provided in this report for the general fund and the school unrestricted fund on pages 57 through 61 and 64.

Factors Affecting Financial Condition

The information presented in the financial statement is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Town of Westerly operates.

Local Economy

Westerly was known for its granite and stone-cutting industry, a type of granite, known as Westerly granite, has been and continues to be quarried here. The granite is ideal for statuary, and has been used in numerous government buildings of states along the eastern seaboard.

Along the coast of Westerly lie salt ponds, which serve as shallow reef like pools, whose outer walls form the long, white beaches which the town is renowned for. These ponds, Maschaug Pond, Winnapaug Pond and the Ouocochontaug Pond are assets that the town continues to utilize. They are part of the Rhode Island's growing aquaculture industry. Portions of the ponds are leased to small commercial oyster farms.

With its coastline and beaches, Westerly was always a tourist destination. Despite the down economy, investment in Westerly continues. In 2010, the Ocean House's \$146 million dollar renovation was completed and it opened its door for business. The nearby Weekapaug Inn, closed in 2005, completed a \$25 million dollar renovation and opened in September 2012.

Being recognized as one of the Country's top new golf facilities, the Shelter Harbor Golf club was opened in 2005. This is just one of multiple public and private golf courses located in Westerly. Other recreation facilities include two yacht clubs, and several marinas and boat yards. The Westerly YMCA, located downtown, completed in 2013 a \$6.5 million renovation, and in 2011 started operating a downtown outdoor ice skating rink, funded with nearly \$1 million of private donations. The Westerly Public Library recently completed an \$8 million dollar renovation which was funded primarily with private donations.

Westerly is home to the Westerly State Airport, a 321 acre facility that has more than 25,000 annual flights (averaging over 60 per day), and is also home to an Amtrak Station.

Westerly just completed a \$30 million renovation of its high school. This was after building a \$28 million dollar middle school in 2006, a new \$12 million police station in 2007 and \$5 million public works facility in 2008. The town has started to study the needs and current conditions of its elementary schools.

In October 2012 the Misquamicut area of Westerly suffered damage due to Super Storm Sandy. The Cost to the Town for recovery and repairs to this area is estimated to be in the range of \$3 million dollars. The Town expects FEMA to reimburse 75% of this cost. Besides the damage to Town property, there was substantial damage to the area homes and businesses. Property owners are currently rebuilding and the community has banded together to raise funds to insure the reestablishment of the popular beach area.

Pension and other postemployment benefits

Unlike most municipalities Westerly has moved away from defined benefit type pensions. Most town employees participate in a defined contribution (401 type) plan. There are only two groups, police and teachers, which still have defined benefit plans.

Teachers participate in the State plan. In November 2011, the State of Rhode Island passed major changes to this plan. Among the changes is the creation of a hybrid program with both defined benefit and defined contribution components. This legislation also changed the required length of service.

The police are in a town managed defined contribution plan. Assets are professionally managed. This pension is currently funded at 64%. The Town will look at changes made to the state plan, and look to implement some of ideas into its plan. The Town has for the past two years and plans to continue to fund the Annual Required Payment (ARC) at 100%.

Westerly has an OPEB obligation of \$13 million, related to past and grandfathered employees. OPEB funds were previously part of the pension funds but now have been segregated. The OPEB is 24% funded.

Other

Westerly believes in transparency and the accountability it inspires. This is the third year that the town's annual audit is presented in the form of a Comprehensive Annual Financial Report. The Town has redesigned its monthly budget reports and started posting them, its non payroll check register, and pension actuary reports on its Town website. For FY 2012 Westerly combined the role of Town and School Finance Director position, and continues to look at other areas to combine services and expand report on its activities to the public.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance department. We would like to express our appreciation to all members of the department. Credit must also be give to the Town Council and its President, and the School Committee and its Chairman, for the unfailing support for achieving and maintaining the highest standards of professionalism in the management of the Town of Westerly's finances.

Independent Auditors' Report

To the Honorable President
and Members of the Town Council
Town of Westerly, Rhode Island

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Westerly, Rhode Island, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Town of Westerly, Rhode Island's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Westerly, Rhode Island, as of June 30, 2013 and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 12 and the budgetary comparison information on pages 57 through 61 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Westerly, Rhode Island's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional

procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 12, 2014 on our consideration of the Town of Westerly, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Westerly, Rhode Island's internal control over financial reporting and compliance.

**TOWN OF WESTERLY, RHODE ISLAND
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended June 30, 2013**

As management of the Town of Westerly, we offer readers of the Town's financial statements this narrative overview and analysis of the Town's financial activities for the fiscal year ended June 30, 2013. We encourage the readers to consider the information presented here in conjunction with the letter of transmittal on pages iii-viii of this report as well as the Town's basic financial statement that follow this section.

Financial Highlights

- The assets of the Town of Westerly exceeded its liabilities at the close of the most recent fiscal year by \$126,324,916. Of this amount \$20,539,058 is unrestricted and may be used to meet the Town's ongoing obligations to citizens and creditors.
- The Town's net position increased by \$5,044,651.
- As of the close of the current fiscal year, the Town of Westerly's governmental funds reported combined ending fund balances of \$20,160,295. Approximately 37.2% of the ending fund balance, \$7,507,748 is unassigned and available for use within the Town's designation and fiscal policies.
- At the end of the current fiscal year, the General Fund's unassigned fund balance was \$7,542,061, or 9.3% of the total General Fund budgeted expenditures for the 2013 fiscal year. The current fiscal year's General Fund expenditures and transfers exceeded revenues by \$830,658 on a GAAP basis. On a budgetary basis, the total revenues and other financing sources exceeded the total expenditures and other financing uses by \$962,101.
- The Town's total bonded debt increased by \$2,405,000 (4.3%) during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town of Westerly's basic financial statements. The Town's basic financial statements comprise three components:

1. Government-Wide Financial Statements
2. Fund Financial Statements
3. Notes to the Financial Statements

This report also contains other supplementary information in addition to the basic financial statements themselves.

The Town's basic financial statements and other supplementary financial information provide information about all of the Town's activities. They provide both a short-term and long-term view of the Town's financial health as well as information about activities for which the Town acts solely as a trustee for the benefit of those outside of the Town's government.

Government-Wide Financial Statements. The government-wide financial statements are designed to provide readers with board overview of the Town's finances in a manner similar to a private-sector business.

The statement of net position present information on all of the Town's assets and liabilities, with the difference between the two reported as net position. Over time, increase or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. Examples are uncollected taxes and earned but unused compensated absences.

Both of the government-wide financial statement distinguish functions of the Town of Westerly that are principally supported by taxes and intergovernmental revenue (governmental activities) from other functions that are intended to recover all or a significant portion of their cost through user fees and charges (business-type activities). The government activities of the Town include general government, public safety, streets and highways, libraries, education and recreation. The business-type activities of the Town include a water fund, sewer fund and beach fund. Fiscal Year 2013 will be the last year of the beach fund. This fund and its operations have been merged into the Town's general fund for fiscal year 2014.

The government wide financial statements are reported on pages 13 through 14.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Westerly, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the Town can be divided into three categories, governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statement, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town of Westerly maintains individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, School Bond Fund, and Capital Project Fund, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements included in the other supplementary information.

The Town of Westerly adopts an annual appropriated budget for its General Fund and school fund. Budgetary comparison schedules have been provided for the General Fund and school fund to demonstrate compliance with this budget.

Proprietary Funds. The Town's proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements with the exception of the Internal Service Funds which are reported as governmental fund type activity. The Town has three enterprise funds. Water Fund accounts for the water system of the entire Town of Westerly as well as neighboring Pawcatuck, Connecticut. Sewer Fund operates sixty-one (61) miles of sanitary sewers, which covers approximately 50% of the Town. Beach Fund accounts primarily for rental and parking activities for the waterfront property acquired in 2001. The real property associated with the Beach Fund was damaged and ultimately removed from Storm Sandy. As noted above this fund was merged into the General Fund starting fiscal year 2014.

The Town's internal service funds represent an accounting device used to accumulate and allocate cost internally among the Town's various functions. The Town has two internal service funds, Health Fund and Self-Insurance Fund. The Town is self insured in its health and dental coverage, and Health Fund reports the actual claims as well as the Town's contribution to the fund and employee deductions for the benefit program. Self-Insurance Fund records activities for the Town's commercial insurance deductibles and insurance claim receipts.

The basic proprietary fund financial statements are present on pages 19-21.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because resources of those funds are ***not*** available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statement can be found on pages 22-23.

Notes to Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statement are presented on page 24-56.

Other Information. In addition to the basis financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Town of Westerly.

Required Supplementary information is presented on pages 57-61.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 65-84.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town of Westerly, assets exceeded liabilities by \$126,324,916 as of June 30, 2013.

The largest portion of the Town's net position (82%) is its investment in capital assets (e.g. land, buildings, infrastructure, machinery and equipment); less any related debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide service to citizens; consequently, these assets are not available for future spending. Although the Town's investment in capital assets is report net of related debt, it should be noted that the resources to repay this debt must be provided from other sources, since the capital asset cannot be used to liquidate these liabilities.

An additional portion of the Town's net position, \$2,542,513, represents resources that are subject to external restriction on how they may be used. The remaining balance of unrestricted net position \$20,539,058, may be used to meet the government's ongoing obligations to its citizens and creditors.

At the end of the current fiscal year, the Town of Westerly is able to report positive balance in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities.

The Town's net position increased by \$5,044,651 during the current fiscal year. Of this amount governmental activities accounted for \$4,148,873 the increase while business-type activities accounted for \$895,778.

Governmental Activities. Governmental activities increased the Town's net position by, \$4,148,873, thereby accounting for 82% of the total increase in net position of the town.

2013 Governmental Activities: Revenues

2013 Governmental Activities: Expenses

Business-type Activities - Net position in business type activities increased by \$895,778, resulting in a 0.6% increase in business-type assets.

Charges for services for business-type activities accounted for 99.97% of the total revenue sources. The balance of revenues for business-type activities was from operating grants and contributions and investment income.

The total expenses within the business-type activities of the Town include the following: Water Fund 52.1%, wastewater treatment 44.3% and Beach Fund 3.6%.

Financial Analysis of the Town of Westerly's Funds

As noted earlier, the Town of Westerly uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds - The focus of the Town of Westerly's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the Town's governmental funds reported a combined ending fund balance of \$20,160,295. Approximately 37.2% is available for spending at the government's discretion within the Town's total Fund Balance. The remaining fund balance of \$12,652,547 included \$2,907,033 of Committed Fund Balance for Capital Projects, \$642,000 assigned to the 2014 budget, \$2,443,435 nonspendable for prepaid items, and \$6,660,079 restricted to specific programs.

The General Fund is the chief operating fund of the Town of Westerly. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$7,542,061 while total fund balance was \$13,226,027. As a measure of the General Fund's liquidity it may be useful to compare both unassigned fund balance and total fund balance to total General Fund budgeted expenditures. Unassigned fund balance represents 9.1% of the 2014 FY Adopted General Fund Expenditure Budget. While total fund balance represents 16.0% of that same amount.

Key Factors in the Change of the Town's Governmental Fund Balances

The School Restricted fund balance of \$2,902,738 of which \$1,000,000 has been committed to the 2014 FY budget, additionally \$934,543 is committed to liquidate contracts and purchase orders of the prior year.

Proprietary Funds - The Town of Westerly's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position in the water fund at the end of the fiscal year amounted to \$2,244,457, unrestricted net position in the sewer fund was \$3,338,031 and the balance in the beach fund was \$169,095.

General Fund Budgetary Highlights

Overall the Town of Westerly, Rhode Island finished the 2012-2013 fiscal year with a budgetary surplus of \$962,101.

Major General Fund Revenue Factors:

General Property Taxes - Property taxes are the largest single revenue source for the General Fund and account for 79.6% of total revenues. The town budgeted current property tax at 98.0% collection rate, while the actual collection rate was at approximately 99.9%. The increase is due to Motor Vehicle and Prior Years Tax collection.

Intergovernmental Revenues - The Town receives a portion of revenue from Meals and Hotel Tax collected by local establishments and remitted to the State of Rhode Island. Despite the weak economy, the addition of new business, and a good summer trade, more than offset this and is the main reason that the Town collected \$215,215 more than budgeted for Intergovernmental Revenues.

Licenses and Permits - The economy and downturn in new residential construction resulted in this item being over budget by \$64,121. This increase is attributable to the reconstruction of Atlantic Avenue after Storm Sandy.

Solid Waste Revenues - Transfer station receipts were over budget by \$73,889. This increase is attributable to the reconstruction of Atlantic Avenue after Storm Sandy.

Major Expenditure Factors:

Education Expense accounts for approximately 62.1% of the total expenditures within the General Fund of the Town of Westerly. Public Safety 9.1%, Public Works 6.9%, and General Government 9.6%. The other major expense is debt service which accounts for 12.3%.

Capital Assets and Debt Administration

Capital Assets - The Town of Westerly's in capital assets for its governmental and business-type activities as of June 30, 2013 amounts to \$196,008,972 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery and equipment, park facilities, infrastructure, and construction in progress.

State statutes limit the amount of general obligation bonded debt a town can issue to 3 percent of net assessed property values. However, all bonds approved through State enabling legislation and voter referendums are exempt from the limit. As of June 30, 2013, the Town had a debt limit of \$176,617,926.

In May 2012 the Town of Westerly was rated as part of Bond Refunding. Standard and Poor's rated the Town of Westerly's credit rating at AA/Stable. Moody's Investors Service rated the Town at Aa2.

Economic Factors and Next Year's Budget and Rates

The Town of Westerly's total proposed General Fund budget for fiscal year 2014 amounts to \$82,430,175 which reflects an increase of \$2,103,441 (2.6%) over the fiscal 2013 budget. Of the Town's \$82,430,175 budget, \$51,702,551 or 62.7% is budgeted for Westerly Public Schools. The Town is budgeted to receive \$7,016,425 from the State of Rhode Island for Aid to Education.

The Town's tax rate for fiscal year 2013 is \$9.74 versus \$10.53 for fiscal year 2014.

The Town's debt service will remain level, until 2016 when the Town will see significant reductions. The primary cause of this increase is recently issued debt related to the High School renovation.

The Town is the first Rhode Island community to combine the Town and School Finance Director position. The Town and School continue to find ways to share services to reduce overall cost.

STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES - GOVERNMENTAL FUNDS (CONTINUED)

FOR THE YEAR ENDED JUNE 30, 2013

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund
Balances of Governmental Funds to the Statement of Activities:

Amounts reported for governmental activities in the statement of activities (Exhibit II) are different
because of the following:

Net change in fund balances - total governmental funds (Exhibit IV) \$ 4,082,621

Governmental funds report capital outlays as expenditures. However, in the statement of
activities the cost of those assets is allocated over their estimated useful lives and
reported as depreciation expense.

Capital outlay	6,307,139
Depreciation expense	(5,285,492)

Revenues in the statement of activities that do not provide current financial
resources are not reported as revenues in the funds.

Property taxes collected after 60 days	(175,622)
Other departmental revenues	97,498

Change in bond issuance cost	90,779
------------------------------	--------

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources
to governmental funds, while the repayment of the principal of long-term debt consumes the
current financial resources of governmental funds. Neither transaction, however, has any
effect on net position. Also, governmental funds report the effect of issuance costs, premiums,
discounts and similar items when debt is first issued, whereas these amounts are deferred
and amortized in the statement of activities. This amount is the net effect of these
differences in the treatment of long-term debt and related items.

Bonds issued	(6,500,000)
Issuance of refunding bonds	(20,073,678)
Payment to bond escrow agent	21,813,976
Bond payments	4,169,896
Premium on refunding bonds	(1,933,872)
Capital lease issued	(1,208,876)
Capital lease payments	689,643
Accrued interest	213,806
Loan payments	1,679,438

Some expenses reported in the statement of activities do not require the use of current financial
resources and, therefore, are not reported as expenditures in governmental funds.

Amortization of deferred charges in refunding	1,830,138
Amortization of bond premiums	(1,632,972)
Change in long-term compensated absences	(405,203)
Change in early retirement incentives	137,000
Change in net pension obligation	321,617
Change in MERS obligation	(906,305)
Change in net OPEB obligation	(450,069)

The net expense of the internal service funds is reported with governmental activities.	<u>1,287,411</u>

**TOWN OF WESTERLY, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of Town of Westerly, Rhode Island (the Town). All fiduciary activities are reported only in the fund financial statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external customers for support.

B. Reporting Entity

The Town was founded in 1669. The Town is governed largely under the 1968 Westerly Home Rule Charter. In some matters, including the issuance of short- and long-term debt, the Town is governed by the general laws of the State of Rhode Island. The Town operates under a Town Council-Town Manager form of government with a five-member Town Council headed by a Council President and a Council Vice-President. The Town Manager exercises the executive power of the Town government and is responsible to the Town Council for day-to-day operations of the Town's affairs. All legislative powers of the Town are vested in the Town Council.

The Town provides the following services as authorized by its charter: public safety (police, traffic safety, inspections); public works (sanitation, highways and streets, engineering and building maintenance); zoning and planning; parks and recreation; education; social services; and general administrative services.

C. Basis of Presentation - Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the Town's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the Town's water and transit functions and various other functions of the Town. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

D. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the Town's funds, including its fiduciary funds. Separate statements for each fund category: governmental, proprietary and fiduciary, are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The Town reports the following major governmental funds:

The *General Fund* is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *School Restricted Fund* is used to account for activities related to educational programs funded by state and federal grants.

The *CDBG 2011 Fund* is used to account for projects funded by federal grants to support low to moderate income projects such as Housing Rehabilitation in the North End of Westerly.

The Town reports the following major proprietary funds:

The *Water Fund* is a proprietary (enterprise) fund used to account for the operation and maintenance of the Town's water system, which is primarily supported through charges to customers.

The *Sewer Fund* is a proprietary (enterprise) fund used to account for sewer use fees and the expenses associated with providing wastewater services to Town residents. The fund is primarily supported through charges to customers.

The *Beach Fund* is a proprietary (enterprise) fund used to account for the operation of the Town's beach. The fund is primarily supported through charges to customers.

Additionally, the Town reports the following fund types:

The *Internal Service Funds* are used to account for the Town's self-insurance program for medical and dental health insurance coverage for persons covered by the health benefit plan of the Town and for payment of insurance claims and deductibles not covered by the Town's commercial insurance.

The *Private Purpose Trust Funds* are used to account for resources legally held in trust for use by parties outside of the Town, and cannot be used at the Town's discretion or to support the Town's general operations. The activities of the Town's private purpose trust fund are utilized for various purposes within the Town.

The *Pension Trust Fund* is used to account for funding and payment of pension benefits provided to police officers.

The *OPEB Trust Fund* is used to account for funding of future other postemployment benefits such as health, dental and life insurance for the Town's and School Department's retirees.

The *Agency Funds* account for assets held by the Town as agent for various student groups and other organizations for construction deposits held in escrow, and for unclaimed probate estate assets.

During the course of operations, the Town has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, charges for services, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the Town.

The proprietary, pension trust, and private purpose trust funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

F. Assets, Liabilities and Equity

1. Cash and Cash Equivalents

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

2. Investments

Investments for the Town are reported at fair value (generally based on quoted market prices), except for nonparticipating interest earning investment contracts (i.e. certificates of deposit) which are recorded at amortized cost.

3. Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of donated commodities are stated at fair market value. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

4. Unbilled Services Receivable

Water and sewer revenue is recorded when earned. Customers are billed semi-annually and some commercial customers are billed quarterly. The estimated value of services provided but unbilled at June 30, 2013 is recorded as an accounts receivable in the water and sewer funds.

5. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. The estimated historical costs of infrastructure assets (retroactive to January 1, 1979) have been included in the Governmental Activities capital assets.

As the Town constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs that are essentially amounts spent in relation to capital assets and that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at their estimated fair value at the date of donation.

Land and construction in progress are not depreciated. The other property, plant, equipment, and infrastructure of the Town are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Tanks and structures	100
Mains, wells, pumps, hydrants, laterals, connections, filter beds	75
Buildings and improvements	25-40
Machinery and equipment	3-10
Vehicles	5-10

6. Equity

Equity in the government-wide financial statements is defined as “net position” and is classified in the following categories:

Net Investment in Capital Assets - This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

Restricted Net Position - Restrictions are externally imposed by creditors (such as through debt covenants), grantors, contributors or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position - This component consists of net position that does not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

The equity of the fund financial statements is defined as “fund balance” and is classified in the following categories:

Nonspendable Fund Balance - This represents amounts that cannot be spent due to form (e.g., inventories and prepaid amounts) or legally or contractually required to be maintained intact.

Restricted Fund Balance - This represents amounts constrained for a specific purpose by external parties, such as grantors, creditors, contributors, or laws and regulations of their governments.

Committed Fund Balance - This represents amounts constrained for a specific purpose imposed by formal action of the Town’s highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the Town removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The Town Council is the highest level of decision-making authority and utilizes Town Ordinances or resolution as a formal procedure to commit fund balance.

Assigned Fund Balance - For all governmental funds other than the General Fund, this represents any remaining positive amounts not classified as nonspendable, restricted or committed. For the General Fund, this includes amounts constrained for the intent to be used for a specific purpose. The intent should be expressed by the highest level of decision-making authority or an official to which this intent has been delegated by the highest level of decision-making authority, the finance director in this case.

Unassigned Fund Balance - This represents fund balance in the General Fund in excess of nonspendable, restricted, committed and assigned fund balance. If another governmental fund has a fund balance deficit, it is reported as a negative amount in unassigned fund balance.

7. Fund Balance Policies

Sometimes the Town will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

G. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

2. Property Taxes

Property taxes attach as an enforceable lien on real property. Real and personal property taxes are based on values assessed as of each December 31 (lien date) and are levied as of July 1st.

Taxes are due in equal quarterly installments on August 1, November 1, February 1, and May 1 following the levy date. The taxpayer may elect to pay the taxes in full by September 1, annually. Taxes due and unpaid after the respective due dates are subject to interest at a rate of 12% per annum calculated on the unpaid portion of the total tax. An automatic lien is placed on the taxpayer's property if payment has not been received by the tax due date. Property taxes levied are recorded as receivables in the fiscal year of the levy.

3. Compensated Absences

Vacation and Sick Leave

The Town's policy permits certain employees to accumulate earned but unused vacation and sick benefits. Upon retirement, termination or death, these employees are compensated for unused vacation and sick leave (subject to certain limitations) at their current rates of pay. The liability for such leave is reported as incurred in the government-wide and proprietary fund financial statements. A liability for those amounts is recorded in the governmental funds only if the liability has matured as a result of employee resignations or retirements. For governmental activities, the General Fund is used to satisfy this liability as it becomes due, while each enterprise fund accounts for all its settlement of business-type liabilities for compensated absences. The liability for compensated absences is accrued at varying amounts based on the collective bargaining unit contracts of the various unions and includes salary-related benefits, where applicable.

4. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the wastewater fund, solid waste fund, water fund, school cafeteria fund and internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

5. Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

In accordance with the Town's charter, the Town has formally established budgetary accounting control for its General Fund. It is the responsibility of the Town Manager to submit a proposed General Fund budget to the Town Council and the Board of Finance. The General Fund budget includes the Municipal budget and the School Department budget. The proposed School Department budget is approved by the School Committee and presented to the Town Manager. The Board of Finance has the power to recommend revisions to any School Department budget item and must conduct one public hearing after a tentative School budget is formed. The Board of Finance must also review the proposed Municipal budget and make revisions as appropriate and hold one public hearing on the Municipal budget. The Town Council may then revise and adopt a recommended General Fund budget including changes to the School Department appropriation. At least two public hearings are conducted on the recommended General Fund budget and the final recommended budget is legally enacted through an ordinance by the Town Council prior to the start of the fiscal year.

Budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund and the School Unrestricted Fund. The Capital Projects Fund is appropriated on a project-length basis. Other special revenue funds and the permanent funds do not have appropriated budgets since other means control the use of these resources (e.g., grant awards and endowment requirements) and sometimes span a period of more than one fiscal year.

At any time during the fiscal year the Town Manager may transfer part or all of any unencumbered appropriation balance among programs within a department, office or agency and, upon written request by the Town Manager, the Council may by ordinance transfer part or all of any unencumbered appropriation balance from one department, office or agency to another.

The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level.

Every appropriation, except an appropriation for a capital expenditure or the appropriation for support of public schools, shall lapse at the close of the fiscal year to the extent that it has not been expended or encumbered. An appropriation for a capital expenditure shall continue in force until the purpose for which it was made has been accomplished or abandoned; the purpose of any such appropriation shall be deemed abandoned if three years pass without any disbursement from or encumbrance of the appropriation.

B. Deficit Fund Equity

The following funds had fund equity deficits at June 30, 2013:

Special Revenue Funds:		
Riverwalk Greenways Grant	\$	6,551
CDBG 2010		703
Junevile Justice		177
Energy Efficiency		3
Underage Drinking		429
Capital Project Funds:		
Canal Street Acquisition		3,450
DEM Riverfront Park		23,000

These fund deficits will be funded by grants and Town contributions.

C. Excess of Expenditures over Appropriations

For the year ended June 30, 2013, expenditures exceeded appropriations in the following categories:

Legal services	\$	5,216
Town manager		6,929
Finance department		163,380
Assessment administration		38,696
Human resources		15,191
Employee group insurance		63,742
Town buildings		31,604
Public works administration		52,923
Street lighting		54,321
Sanitation		311,823
Equipment maintenance		26,133
Engineering		33
Police department		33,786
Animal control		11,453
Animal shelter		8,026
Conservation comminssion		254
Town beach operations		60,691
Maintenance		35,017
Town debt service		2,936,417
Education		321,258

The excess of expenditures over budget for Education was covered by increase of State grant-in-aid for the same amount. All other excess of expenditures over appropriations was covered by the fund balance.

NOTE 3. CASH DEPOSITS WITH FINANCIAL INSTITUTIONS

A. Deposits

Substantially, all of the Town's cash and cash equivalents are held in public deposit institutions. Pursuant to Section 35-10-1 of the Rhode Island General Laws, as of October 1, 1991, public deposit institutions are required to insure accounts that hold public funds in excess of the \$250,000 that is guaranteed by FDIC. At times, the Town pools cash resources of its various funds to facilitate the management of cash and maximize investment returns.

Deposit Custodial Credit Risk - Custodial credit risk in the case of deposits is the risk that in the event of a bank failure, the Town's deposits may not be returned. The State of Rhode Island requires that certain uninsured deposits be collateralized. Section 35-10.1-7 of the General Laws of the State of Rhode Island, dealing with the collateralization of public deposits, requires that all time deposits with maturities of greater than 60 days and all deposits in institutions that do not meet the minimum capital requirements of its federal regulator must be collateralized. The Town does not have a formal deposit policy for custodial credit risk, but is governed by State laws as described above.

As of June 30, 2013, the Town's entire bank balance of \$19,447,532 was covered by either FDIC insurance or collateral held in Town's name.

B. Cash Equivalents

Cash equivalents are short-term, highly liquid investments that are both readily convertible to known amounts of cash and purchased within 90 days of maturity. As of June 30, 2013, cash equivalents amounted to \$374,603. The cash equivalents consisted of certificates of deposit subject to coverage by federal depository insurance and collateralization and money market mutual funds held at banking institution and were not rated.

NOTE 4. INVESTMENTS

General Fund investments are governed by Title 35, Chapter 10, Section 11 of the State's General Laws. This law generally allows for short-term investments, such as certificates of deposit, money market funds and obligations guaranteed by the United States government with the goal of seeking reasonable income while preserving capital. The Pension Trust Fund's investments are not limited by a formal investment policy.

As of June 30, 2013, the Town had the following investments:

<u>Investment Type</u>	<u>Credit Rating</u>	<u>Fair Value</u>	<u>Investment Maturities (Years)</u>		
			<u>Less Than 1</u>	<u>1 - 10</u>	<u>More Than 10</u>
Interest-bearing investments:

Common stock		12,074,295			
Mutual funds - equity		5,105,409			
Mutual funds - fixed income		497,190			
Total Investments		\$ 27,082,426			

Interest Rate Risk - The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The Town has made it a practice to limit the maturities on General Fund investments to sixty (60) days or less. Information about the exposure of the Town's securities to the risk is presented in the table directly above.

Credit Risk - State law limits investments in U.S. Treasury bills, U.S. Treasury notes and bonds, U.S. Agency obligations, certificates of deposit, repurchase agreements, commercial paper, money market mutual funds and money market mutual funds. The Town has no investment policy that would further limit its investment choices. The ratings for the Town's investments are presented above.

Concentration of Credit Risk - The Town does not have any policies that limit the amount that can be invested in any one issuer.

Custodial Credit Risk - For an investment, this is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town does not have a policy related to custodial credit risk. The Town's investments held by the Town's counterparty are held in the name of the Town.

NOTE 5. RECEIVABLES

Below is the detail of receivables for each major governmental fund and the aggregate remaining funds, including the applicable allowances for uncollectible accounts:

	<u>General</u>	<u>School Restricted Fund</u>	<u>CDBG 2011</u>	<u>Water</u>	<u>Sewer</u>	<u>Nonmajor and Other Funds</u>	<u>Total</u>

NOTE 6. INTERFUND RECEIVABLES AND PAYABLES AND TRANSFERS

A. Interfund Receivables and Payables

The composition of interfund balances as of June 30, 2013 is as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Internal Service Fund	\$ 1,289,285
	School Restricted Fund	1,412,209
	CDBG 2011	1,377,370
	Nonmajor governmental funds	<u>84,494</u>
		<u>4,163,358</u>
Nonmajor governmental funds	General Fund	<u>796</u>
Internal Service Fund	General Fund	480,144
	Water Fund	135,352
	Sewer Fund	52,710
	Pension Trust Fund	<u>228,965</u>
		<u>897,171</u>
Beach Fund	General Fund	<u>114</u>
Total		<u>\$ 5,061,439</u>

The outstanding balances between funds result mainly from advances from one fund (primarily the General Fund) to another fund. The advances may represent balances resulting from operating advances or reimbursement for expenditures paid by one fund on behalf of another fund.

B. Interfund Transfers

The composition of interfund transfers for the year ended June 30, 2013 is as follows:

	<u>Transfers In</u>				<u>Total Transfers Out</u>
	<u>General Fund</u>	<u>Sewer Fund</u>	<u>Beach Fund</u>	<u>Nonmajor Govern- mental Funds</u>	
Transfers out:					
General Fund	\$	\$ 369,381	\$ 235,199	\$ 516,174	\$ 1,120,754
School Restricted Fund	1,951				1,951

During the year, transfers are used to provide a financing source to various funds that may not have the ability to cover all operating costs with revenue generated by the fund.

NOTE 7. DEFERRED REVENUES

Governmental funds report deferred revenue in connection with receivables that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

	<u>Unavailable</u>	<u>Unearned</u>
General Fund:		
Delinquent property taxes receivable	\$ 2,580,897	\$

B. General Obligation Bonds

The Town issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities. General obligation bonds are direct obligations and pledge the full faith and credit of the Town. These bonds generally are issued as serial bonds with equal or varying amounts of principal maturing each year with maturities that range from 15 to 20 years. General obligation bonds outstanding at June 30, 2013 are as follows:

The Wastewater and Superfund bonds payable presented in the financial statements as direct liabilities of the Wastewater and Solid Waste funds are general obligations of the Town backed ultimately by its taxing power. Because the proceeds of the bonds are used entirely for the benefits of the Wastewater and Solid Waste Funds, the liabilities and the related debt service of these bonds are accounting for in these funds.

The Water Fund bonds payable presented in the financial statements as direct liabilities of the Water Fund are revenue bonds backed by the Water Funds ability to assess user fees. Because the proceeds of the bonds are used entirely for the benefits of the Water Fund, the liability and the related debt service of these bonds are accounted for in the Water Fund.

The debt service requirements for the Town’s bonds are as follows:

	<u>Governmental Activities</u>		<u>Business-Type Activities</u>	
	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>

C. Loans Payable

The Town has entered into four loan agreements with Rhode Island Clean Water Protection Finance Agency (the Agency) as follows:

<u>Loan Date</u>	<u>Date of Maturity</u>	<u>Interest Rate (%)</u>	<u>Amount of Original Issue</u>	<u>Balance Outstanding June 30, 2013</u>
12/15/1995	9/1/2015	2.958	\$ 1,849,000	\$ 308,168

12/16/2004	9/1/2025	0.775-1.545	1,724,300	<u>1,122,300</u>
				\$ <u>5,181,638</u>

The loan proceeds are to be used by the Town for the upgrade of the sewer treatment system. The Agency pays project invoices certified by the Town directly to the contractors or reimburses the Town for costs incurred on the projects. As of June 30, 2013, loans payable of \$5,181,638 are reflected in the Sewer Fund. A due from the Agency of \$42,153 is shown for that portion of the loans that have not been advanced as of June 30, 2013. The Town is responsible to drawdown and to repay the full amount of the loan.

The Town has also entered into four loan agreements with Rhode Island Health and Educational Building Corporation as follows:

<u>Loan Date</u>	<u>Date of Maturity</u>	<u>Interest Rate (%)</u>	<u>Amount of Original Issue</u>	<u>Balance Outstanding June 30, 2013</u>
6/15/2010	4/1/2027	5.75	\$ 3,855,000	\$ 3,373,124

7/14/2011	4/1/2031	2.5.0	14,645,000	<u>13,870,000</u>
				<u>\$ 27,732,124</u>

The Town will receive interest subsidies totaling \$2,753,366 for the June 15, 2010 loan and \$4,379,735 for the December 2, 2010 loan from the federal government over the life of the loans.

The debt service requirements for the loans are as follows:

	<u>Governmental Activities</u>		<u>Business-Type Activities</u>	
	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>
2014	\$ 1,679,438	\$ 1,382,628	\$ 612,268	\$ 124,464

D. Capital Leases

The Town has entered into various lease agreements as lessee for financing the acquisition of vehicles and machinery valued at \$4,031,793. The assets have a three- to twenty-year useful life. For the year ended June 30, 2013, \$403,721 was included in depreciation expense. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of future minimum lease payments as of the inception date.

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2013, are as follows:

<u>Year Ending June 30,</u>	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
2014	\$ 485,254	\$ 13,732
2015	514,621

Less amount representing interest	<u>(77,859)</u>	<u>(1,225)</u>
Total	<u><u>\$ 1,379,633</u></u>	<u><u>\$ 12,507</u></u>

E. Legal Debt Margin

The Town's legal debt margin as set forth by State Statute is limited to 3% of total taxable assessed value, which approximated \$176,617,926. As of June 30, 2013, the Town's debt subject to the legal debt margin is \$32,446,768 and the Town is under the debt limit by \$144,171,158. The debt subject to the debt limitation is based on the type of debt that is issued.

F. Authorized But Unissued Bond Authority

The Town has remaining authorized but unissued bond authority totaling \$1,104,000. The unissued bond authority is allocated as follows:

G. Early Retirement Incentives

On May 11, 2011, there was an agreement between the Westerly School Department and the WTA to offer an Early Retirement Incentive (ERI). Members that elected to participate in the ERI will receive either (a) individual coverage of \$7,000 per year, (b) two persons or more coverage of \$10,000 per year, or (c) for members that were not covered by health insurance prior to retirement, a \$10,000 one-time payment. The duration of coverage under options (a) and (b) are limited to 4 years for members who are not Medicare eligible. However, any retired WTA member who is age 65 on or before July 1st at any time during the 4-year period shall not longer be eligible for the payment. WTA members at or above Medicare eligible age at the time of retirement will receive a one-time payment of \$10,000. For the year ended June 30, 2013, the Town paid \$137,000 in early retirement incentive benefits. The liability at year end is \$180,000.

NOTE 13. PENSION PLANS

A. Employees' Retirement System (ERS) - Defined Benefit Plan

Plan Description - All full-time teachers, principals, school nurses and certain other school officials (including the superintendent) in the Town's school system must participate in ERS, a cost-sharing multiple employer defined benefit plan administered by the Employees' Retirement System of Rhode Island (the System). The plan provides retirement, death and disability benefits (as well as annual cost of living allowances if certain conditions have been met) as outlined in Chapters 36-10 and 16-16 of the Rhode Island General Laws (RIGL). The benefits may be amended by the Rhode Island General Assembly.

Funding Policy - The funding policy is outlined in RIGL sections 16-16-22 and 36-10-2 (which can be amended by the Rhode Island General Assembly). Active plan members must contribute 3.75% of their compensation. The Town and the State are collectively required to contribute at an actuarially determined rate expressed as a percentage of total compensation paid to the active membership. The employer contribution is split and paid 40% by the State and 60% by the school district with the exception of teachers who work in federally funded programs where 100% is paid by the school district and reimbursed by the federal government. For fiscal 2013, the total employer rate 19.29% (7.88% State share and 11.41% local share). The State share of the employer contribution rate includes the total cost of prior contribution deferrals which was .28% for fiscal 2013.

The Town contributed \$2,789,974, \$3,194,006 and \$2,713,979 during the fiscal years 2013, 2012 and 2011, respectively, equal to 100% of the actuarially required contributions for those respective years. For financial reporting purposes, the State's share of contributions are reflected as on-behalf payments and are included as both revenue and expenditures in the accompanying financial statements.

The System issues an annual financial report that includes financial statements and required supplementary information for all of the plans it administers. The reports can be obtained at www.ersri.org.

B. Municipal Employees' Retirement System (MERS) - Defined Benefit

Plan Closure - Effective July 1, 2013, the Town will not have any active employees in the plan. As required by Rhode Island General Law (RIGL) 45-21-42 entitled Contributions by Municipalities, the Town is required to make the employer contributions for the vested pension obligation of its members. Accordingly, a calculation has been performed and computed the liability to be \$906,305. ERSRI has determined that this liability can be amortized over a period not to exceed five years. The Town is required to pay \$181,261 each year starting with fiscal year ending June 30, 2014 until fiscal year ending June 30, 2018. This amount has been recorded as a liability in the Town's government-wide financial statements.

The amount for subsequent years will be determined by future valuations, taking into account any gains or losses.

Plan Description - One current Town employee and eight retirees participate in the MERS, an agent multiple-employer defined benefit plan administered by the Employees' Retirement System of Rhode Island (the System). The plan provides retirement, death and disability benefits and an optional cost of living adjustment (COLA) as outlined in Chapter 45-21 (and Chapter 45-21.2 if police and fire) of the Rhode Island General Laws (RIGL). The benefits may be amended by the Rhode Island General Assembly.

Retirement Eligibility and Plan Benefits - General Employee Units - Service credits accrued at June 30, 2012 are protected under the Rhode Island Retirement Security Act. Beginning July 1, 2012, members receive a benefit accrual of 1.0% per year. Effective July 1, 2012 the retirement age mirrors the Social Security Normal Retirement Age not to exceed age 67. Benefits are based on the five-year average compensation multiplied by the accumulated service credit percentage. Joint and survivor retirement benefit options are available.

Cost of Living Adjustments - Pursuant to the Rhode Island Retirement Security Act, the Cost of Living Adjustment (COLA) has been suspended for any unit whose funding level is less than 80%. The COLA provision can be reviewed in a five-year interval. When the funding level of a plan exceeds 80%, eligible retirees may receive a COLA annually effective on their date of retirement plus one month. The COLA will be calculated as the five (5) year smoothed investment rate of return less 5.50%, with a 0.00% floor and a 4.00% cap. COLA will be delayed until the later of age 55 or three years after retirement. The COLA will be applied to the first \$25,000 of benefits indexed annually.

Disability retirement provisions - The plan also provides nonservice-connected disability benefits after 5 years of service and service-connected disability pensions with no minimum service requirement.

Plan Funding Policy - The funding policy is outlined in RIGL sections 45-21-41, 45-21-42, and 45-21-52 (which can be amended by the Rhode Island General Assembly). Active non police and fire members must contribute 1% if no COLA or 2% with COLA of their compensation.

The Town is required to contribute at an actuarially determined rate expressed as a percentage of total compensation paid to the active membership. The rate for fiscal year 2013 was 76.88%.

Annual Pension Cost - The Town's annual pension cost of \$47,298 for MERS was equal to the Town's required and actual contributions.

**Three - Year Trend Information
General Municipal Employees**

<u>Fiscal Year Ending</u>	<u>Annual Pension Cost (APC)</u>	<u>Percentage Of APC Contributed</u>	<u>Net Pension Obligation</u>
6/30/2011	\$ 35,939	\$ 100 %	\$ -
6/30/2012	40,439	100	-
6/30/2013	47,298	100	-

The required contribution for fiscal 2013 was determined as part of the actuarial valuation performed as of June 30, 2010. The most recent valuation of the plans within the system was performed as of June 30, 2012. The actuarial methods and assumptions used in those valuations are summarized in the following table.

**Summary of Actuarial Assumptions Used in the MERS
June 30, 2010 and June 30, 2012 Valuations**

Actuarial Cost Method	Individual Entry Age Actuarial Cost
Amortization Method	Level Percent of Payroll - Closed
Equivalent Single Remaining Amortization Period	25 years as of June 30, 2010
	23 years as of June 30, 2012
Asset Valuation Method	5 Year Smoothed Market
Actuarial Assumptions:	
Investment Rate of Return	7.50%
Projected Salary Increases	<u>General Employees</u> 4.00% to 8.00%
Inflation	2.75%

Cost of Living Adjustments are equal to the average five-year fund asset performance (percent) greater than 5.5% up to a maximum of 4% - the COLA is to be applied to the first \$25,000 of benefits, indexed over time. COLA is delayed until the later of Social Security eligibility age or 3 years after retirement. For MERS Police and Fire, COLA is delayed until the later of age 55 or 3 years after retirement. A 2% COLA is assumed after July 1, 2012.

Funding Status and Funding Progress - The schedule of funding progress presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. The System issues an annual financial report that includes financial statements and required supplementary information for all of the plans it administers. The reports can be obtained at www.ersri.org.

<u>Actuarial Valuation Date</u>	<u>Actuarial Value of Assets</u>	<u>Actuarial Accrued Liability (AAL) Entry Age</u>	<u>Unfunded Accrued Liability (UAAL)</u>	<u>Funded Ratio</u>	<u>Covered Payroll</u>	<u>UAAL as a Percentage of Covered Payroll</u>
6/30/2009	\$ 439,397	\$ 962,696	\$ (523,299)	45.6%	\$ 64,591	(810.2) %
6/30/2010	339,662	1,000,917	(661,255)	33.9%	64,658	(1,022.7)
6/30/2011	264,527	993,166	(728,639)	26.6%	65,976	(1,104.4)
6/30/2012	205,065	965,739	(760,674)	21.2%	67,306	(1,130.2)

Changes Affecting the June 30, 2012 Actuarial Valuation - The assumptions for the Municipal Employees' Retirement System are consistent with the 2011 valuation, with the exception of certain assumption changes that resulted from the enactment of the Rhode Island Retirement Security Act of 2011. The marriage assumption was modified to reflect the expected percentage of members that will be eligible for survivor benefits upon their death, the incidence of disability was lowered to incorporate a continued trend of significantly fewer incidents of disability than anticipated by the current assumption, and the missing data assumption was updated to incorporate an assumption for missing beneficiary data.

The method used to determine the actuarial value of assets is the five-year smoothed market method. A small adjustment was made to the method used to smooth investment gains and losses to allow gains and losses to offset each other immediately. This modification will reduce future volatility in the actuarial value of assets while ensuring that the actuarial value always trends directly towards the market value of assets.

Changes Affecting the June 30, 2011 Actuarial Valuation - The retirement rates were modified to be consistent with the retirement eligibility changes instituted by the Rhode Island Retirement Security Act of 2011. Members that were assumed to retire prior to the Act, but before the earliest allowable age under the Act, are assumed to retire once eligible.

C. Laborers' International Union of North America National Pension Fund

Plan Description - The Laborers' International Union of North America National Pension Fund is a cost sharing multiple employer defined benefit plan (the Plan). All Town nonsalaried general employees participate in the Plan.

Information regarding the Plan can be obtained from the Fund Office maintained by the Board of Trustees at the following address: Laborers' International (Industrial) Pension Fund, 905 16th Street, N.W., Washington, DC 20006-1765 or at www.lnipf.org.

Eligibility - An employee is eligible to receive pension benefits if they have attained age 62, have five or more years of pension credit and have earned at least one of the years of pension credit during the period that his or her employer is contributing to the Plan.

Benefits - The amount of regular pension benefits payable to an employee is determined by the highest contribution rate at which he or she earned pension credit and years of pension credits earned (up to a maximum of 30 years of pension credits). The regular monthly benefit is payable for each year of pension credit at each contribution rate accepted by the Plan up to \$1.86 per hour. The Plan also provides death and disability benefits.

Funding Policy - The contribution requirements of the Town and employees are established by contract and may be amended by union negotiation. Employees are not required to contribute to the plan. The Town was required to contribute the following amounts for fiscal year ended June 30, 2013: bus drivers and aides - \$1.53 per hour up to a maximum of 40 hours per week; school maintenance, secretarial and clerical employees - \$1.93 per hour; town public works and secretarial employees - \$1.86 per hour from 7/2012 to 9/2012 and 2.05 per hour from 10/2012 to 6/2013; for employee's normal work week. The Town was also required to contribute \$0.06 per hour to an annuity fund (maximum of \$4,000 annually for School employees). The total contribution for fiscal years ended June 30, 2013, 2012 and 2011 was \$813,052, \$708,493 and \$570,512, respectively.

D. Police Pension Plan

The Town is the administrator of a single-employer defined-benefit pension plan established to provide pension benefits for its police officers. The plan is considered to be part of the Town's financial reporting entity and is included in the Town's financial reports as a Pension Trust Fund. Stand-alone financial statements are not issued for the plan. Plan provisions are established by contract and may be amended by union negotiation.

Plan Description - All regular police officers are eligible to participate in the Police Retirement Plan. The plan provides retirement benefits as well as death and disability benefits. Members are 100% vested after 10 years of service. Normal retirement is after the completion of 20 years of service for officers hired prior to July 1, 2010. Officers hired after July 1, 2010 may retire upon completion of 25 years of service. The retirement benefit for officers hired prior to July 1, 2010 is calculated at 50% of annual pay for 20 years of service plus 2% times annual pay for each year of service over 20 years (maximum service equals 25 years). For officers hired after July 1, 2010, the retirement benefit is calculated at 50% of annual pay for 25 years of service plus 2% times annual pay for each year of service over 25 years (maximum service equals 30 years). Annual pay at retirement is a sum equal to the base salary received for the 12 months immediately preceding retirement. The normal form of benefit is 67.5% Joint and Survivor. If a member leaved covered employment or dies before vesting, accumulated member contributions are refunded with interest. If a member dies in the line of duty, the member's heirs shall receive the same benefits as though they had been members of the bargaining unit for 20 years. Retired members are entitled to a 3% cost of living adjustment, not compounded, each year if hired prior to July 1, 2010. (2 1/2% if retired before July 1, 1998). Officers hired after July 1, 2010 are entitled to a 3% cost of living adjustment, not compounded after 5 years on pension or age 52, whichever comes first. Disability retirement for occupational causes equals 50% of annual pay at time of disability. Non-occupational causes receive a lower percentage varying by years of service at time of disability. Members who retire with 25 or more years of service shall receive severance pay based on 1.5 days for each year of service at retirement.

At July 1, 2012, Plan membership consisted of the following:

Retirees and beneficiaries receiving benefits	48
Terminated plan member entitled to but not yet receiving benefits	1
Active plan members	<u>46</u>
Total	<u><u>95</u></u>

Summary of Significant Accounting Policies

Basis of Accounting - Financial statements are prepared using the accrual basis of accounting for the three defined benefit pension plans. Employee and employer contributions are recognized as revenues in the period in which employee services are performed. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans.

Method Used to Value Investments - Investments are reported at market value. Investment income is recognized as earned.

Funding Policy - Active plan members contribute 11% of their covered earnings. The Town has an actuarial valuation to determine the annual required contribution, but does not fund the plan based on the valuation. The Town funds the plan based on the annual budget.

Administrative costs of the plan are financed through investment earnings.

Annual Pension Cost and Net Pension Obligations - The Town's annual pension cost and net pension obligation to Police Pension Plan for the year ended June 30, 2013 was as follows:

	Police Pension Plan
Annual required contribution (ARC)	\$ 1,272,700
Interest on net pension obligation	165,896
Adjustment to annual required contribution	<u>(174,169)</u>
Annual pension cost	1,264,427
Contributions made	<u>(1,586,044)</u>
Change in net pension obligation	(321,617)
Net Pension Obligation, Beginning of Year	<u>2,211,952</u>
Net Pension Obligation, End of Year	<u><u>\$ 1,890,335</u></u>

The annual required contribution for the current year was determined as part of the July 1, 2012 actuarial valuation using the entry-age normal actuarial cost method. The actuarial assumptions included (a) an 8% investment rate of return and (b) 3% to 16% projected salary increases, based on years of service, (c) cost of living adjustment of 3%, not compounded, for members retiring after July 1, 1998 and 2.5%, not compounded, for members retiring before July 1, 1998. The actuarial value of assets was determined at market value with a 5-year phase-in at 20% per year of actual investment return in excess of (less than) expected investment return. The unfunded actuarial accrued liability is being amortized as a level dollar amount using 30-year amortization, on a closed basis.

E. International City Management Association (ICMA) Pension Plan

General salaried employees hired after February 1981 were eligible to participate in this 401(a) defined contribution plan created as of September 1, 1995. Previously, these employees contributed to a defined contribution plan with the International City Management Association, established as a 457(b) deferred compensation plan; this plan was deemed ineligible by IRS codification and has been closed to new entrants, but assets cannot be transferred to the new 401(a) plan.

Employees contribute 6% or more of their qualified salary to a maximum of 25% not to exceed \$30,000. The Town contributes 10% of the qualified salary. Plan provisions and contribution requirements are established and may be amended by the Town Council. The Town's contribution for the year ended June 30, 2013 was \$272,546.

F. School Department Pension Program

All School Department unaffiliated, classified, appointed employees participate in an agreed-upon pension program, which is funded by the School Department. The School Department's contribution is 10% of the qualified employee's salary per year. The employees do not contribute to the plan. The contributions are made to an eligible plan of the employee's choice. All school employees are eligible by federal law to participate in a payroll deduction tax deferred plan, which must be arranged by a broker or private insurance carrier. Contributions for the year ended June 30, 2013 were \$108,445.

NOTE 14. OTHER POSTEMPLOYMENT BENEFIT (OPEB) OBLIGATIONS

Police Other Postemployment Benefit Plan

Plan Description - The Town of Westerly administers a single-employer defined benefit healthcare plan for police. The plan provides medical, dental and life insurance benefits to eligible retirees and their dependents. Coverage to retirees and spouses includes dental insurance for life and a reimbursement of Medicare Part B premium to retirees only after age 65. Most full-time employees of the police department are eligible to participate in the plan. Benefit provisions are established through negotiations between the Town and the Police Officers Union.

At July 1, 2012, plan membership consisted of the following:

	<u>Participants</u>
Retirees	48
Terminated employees	1
Active employees	<u>46</u>
Total	<u><u>95</u></u>

Funding Policy - Contribution requirements are negotiated between the Town and the Police Officers Union. The Town is required to contribute the cost of medical and dental benefits for police officers who retire with at least 20 years of service less the amount of any applicable employee share of premiums as follows:

- Employees hired before July 1, 1993, shall, upon retirement, contribute the same percentage of medical coverage as they contribute at the time of retirement.
- Employees hired on or after July 1, 1993 and retiring after at least 20 years of active service will pay 15% of the cost of health care coverage at the full mature working rate or monthly premium cost and the Town will pay the balance up to a maximum of \$6,000 per year (\$500 per month) until the employee reaches age 65, after which time the employee will pay 15% of the premium cost or fully mature working rate of Plan 65 and the Town will pay the balance up to a maximum of \$6,000 per year (\$500 per month). Any amounts in excess of \$6,000 shall be borne by the employee.

Annual OPEB Cost and Net OPEB Obligations - The Town of Westerly's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the Town's annual OPEB cost for the year, the amount actually contributed to the plan and changes in the Town's net OPEB obligation:

	Police OPEB Benefit Plan
Annual required contribution (ARC)	\$ 922,800
Interest on net OPEB obligation	96,481
Adjustment to annual required contribution	<u>(101,292)</u>
Annual OPEB cost	917,989
Contributions made	<u>(467,920)</u>
Increase in net OPEB obligation	450,069
Net OPEB obligation, beginning of year	<u>1,286,414</u>
Net OPEB Obligation, End of Year	<u><u>\$ 1,736,483</u></u>

The current year expenditures for these postretirement benefits are recognized on a pay-as-you-go basis, as the monthly premiums for the benefits become due.

The Town's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation three-year trend information is presented below.

<u>Fiscal Year Ending</u>	<u>Annual OPEB Cost (AOC)</u>	<u>Actual Contribution</u>	<u>Percentage of AOC Contributed</u>	<u>Net OPEB Obligation</u>

Funding Status and Funding Progress - The funded status of the plan as of July 1, 2011, the most recent actuarial valuation date, is as follows:

<u>Actuarial Valuation Date</u>	<u>Actuarial Value of Assets</u>	<u>Actuarial Liability (AAL) Entry Age</u>	<u>Unfunded AAL (UAAL)</u>	<u>Funded Ratio</u>	<u>Covered Payroll</u>	<u>UAAL as a Percentage of Covered Payroll</u>

Actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These actuarially determined amounts are subject to continual revisions as actual results are compared to past expectations and new estimates are made about the future. The schedule of funding progress, presented above presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions - Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the type of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial calculations of the OPEB plan reflect a long-term perspective. Consistent with this perspective, actuarial valuations, after this initial year, will use actuarial methods and assumptions that include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

The ARC for the plan was determined as part of the July 1, 2012 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included a 7.50% investment rate of return, net of expenses, compounded annually, medical trend rate - 10% as of 2007 graded off 1% per year to an ultimate rate of 5% per year for 2012 and after and dental cost trend rate of 4%. The unfunded actuarial accrued liability is being amortized using level dollar 30-year closed amortization. The actuarial value of assets is equal to fair market value with a 5-year phase-in of the difference between actual and expected investment return at 20% per year.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as accrual results are compared with past expectations and new estimates are made about the future.

NOTE 15. RISK MANAGEMENT

A. Risk Management

The Town of Westerly is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; error and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks did not exceed commercial insurance coverage during the three years ended June 30, 2013.

B. Health Fund

The Town has chosen to establish a Health Fund for risks associated with the employees’ health and dental insurance plans. This fund is accounted for as an Internal Service Fund where assets are set aside for claim settlements. The Town oversees the self-insured program. Plan administration is provided by Blue Cross/Blue Shield of Rhode Island and Delta Dental of Rhode Island.

A premium is charged to each fund that accounts for full or part-time employees. The total charge allocated to each of the funds is calculated using employee rates determined by the self-insurance administrator. The Town utilizes a “cost plus basis” plan under which the Town pays for the actual cost of covered health care services plus a fee to the provider for the administration of the program.

In order to avoid catastrophic losses, the Town purchases specific stop-loss re-insurance. Under the stop-loss, the Town is covered for \$150,000 in medical claims per person/per contract period.

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs) and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example for salvage or subrogation, are another component of the claims liability estimate. Changes in the claims liability for the past two years are as follows:

<u>Fiscal Year</u>	<u>Accrued Liability Beginning of Fiscal Year</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Accrued Liability Claim Payments</u>	<u>Accrued Liability End of Fiscal Year</u>
2012-13	\$ 762,770	\$ 9,814,159	\$ 9,918,893	\$ 658,036
2011-12	640,239	9,254,373	9,131,842	762,770

C. Self-Insurance Fund

The Town established a self-insurance fund to account for insurance on vehicles.

NOTE 16. CONTINGENCIES

Liabilities for legal cases and other claims against governmental funds are recorded in the governmental funds when the ultimate liability can be estimated and such cases are expected to be settled with available expendable financial resources. During the ordinary course of its operations, the Town is party to various claims, legal actions and complaints. In the opinion of the Town's management and legal counsel, these matters are not anticipated to have a material financial impact on the Town.

GENERAL FUND

The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund utilizes the modified accrual basis of accounting.

The School Unrestricted Fund is used to report all financial transactions of the Westerly School Department, which is not legally required to be accounted for separately.
